### Synopsis:

*This talk offers a clear and practical guide on the Route to becoming a Professional Engineer (PE) and achieving International Recognition through the MIEM pathway.*

*The session also highlights the IEM Outcome-Based Professional Interview (PI) 2.0, the gateway to becoming a Corporate Member of IEM (MIEM). The PI 2.0 framework is designed to accommodate graduate engineers from diverse backgrounds—including contractors, developers, manufacturers, government officers, academics, and not just traditional engineering consultants.*
