

Physical Power Talk On EV Charging Infrastructure

BEM Approved CPD Hours: Applying
Ref. No.: Applying

- Explores the Malaysia's EV charging growth
- Uncover engineering challenges
- Discover innovative solutions
- Identify opportunities shaping the nation's transition to sustainable mobility and resilient charging infrastructure for the future.

11th Sept 2025 (Thursday)
4.00pm - 5.30pm

 **Power Space 5, Hall 5,
KLCC**

Mr. Lee Wuen Han

Founder | Managing Director
of Recharge Xolutions

He brings over six years' expertise in EV infrastructure and a Master of Renewable Energy from Universiti Malaya. Passionate about clean mobility, he has led landmark fast-charging projects nationwide, blending engineering excellence with sustainable innovation to power Malaysia's EV future.
