

Call for Abstracts

The organising committee of the International Malaysia Project Excellence Conference (IMPEC) 2025, hosted by PETRONAS, invites professionals, experts, and thought leaders to submit abstracts for presentation.

IMPEC builds on the legacy of the Upstream Project Excellence Conference (UPEC) and the International Project Management Conference (IPMC), bringing together project expertise, emerging technologies, and sustainability to address the challenges of an evolving energy landscape.

With the theme “Fortifying Resilience, Accelerating Technology, and Empowering Talent”, IMPEC 2025 will explore how industry players can drive innovation and deliver purposeful project excellence.

Submit your abstract and be part of shaping the future of project management in the oil, gas, and energy sector.
