# TECHNICAL VISIT ESG CENTRE KUALA LUMPUR - TRX

Jointly Organised between IEM Training Academy and IEM Standing Committee on Professional Practice

The **IEMTA and IEM Standing Committee on Professional Practice** is pleased to invite IEM Members to an exclusive **Technical Visit to the ESG Centre Kuala Lumpur on 29 January 2026**. This is a unique opportunity to explore Malaysia's leading sustainability hub and gain firsthand insights into national ESG initiatives shaping our industries and engineering landscape.

Located at the iconic **TRX City Park**, the ESG Centre is Malaysia's first-ever **“Sustainability Insights”** hub, designed to accelerate Environmental, Social & Governance (ESG) adoption across sectors. This visit offers members an insider look into how ESG frameworks are transforming business practices, regulatory standards, and national development priorities.

Participants will be briefed by **Tn. Hj. Ismail bin Abdullah**, who will share the Centre's mission in empowering businesses, government agencies, and communities to embed ESG values in their operations. Members will also learn how the Centre serves as a collaborative platform to raise public awareness, enhance sustainability literacy, and support alignment with the **UN Sustainable Development Goals (SDGs)**.

## Key Highlights of the ESG Centre

- **ESG Growth Strategies** – How industries can unlock new opportunities through sustainability.
- **Latest Sustainability Insights** – Be updated with emerging ESG trends and global benchmarks.
- **Knowledge & Training Hub** – Discover resources for capacity building and professional upskilling.
- **GIMS Reference Centre** – Understand Malaysia's Greenhouse Gas Inventory Management System.
- **Climate Action Initiatives** – Learn practical approaches to carbon reduction and climate mitigation.

This technical visit aims to provide IEM members with valuable exposure to national sustainability efforts, including ESG education, data-driven insights, and policy integration. It will also explore potential avenues for future collaboration in areas such as professional training, ESG competency development, GHG reporting, and capacity-building programmes for engineers.

Don't miss this opportunity to deepen your understanding of ESG and connect with Malaysia's central hub for sustainability transformation.

**Reserve your spot and be part of Malaysia's journey toward a greener, more responsible future!**
