HRD IEM MEMBER	RM 1,000.00
NON IEM MEMBER	RM 1,200.00
HRD NON IEM MEMBER	RM 1,300.00
PRESENTING AUTHOR	RM 800.00

Since its inception in 2001, followed by subsequent editions in 2004, 2006, and 2011, the Brownfield conference series has served as a key platform for advancing knowledge, policy, and practice in the remediation and management of contaminated land across the region. Now in its 6th edition, Brownfield Asia 2026 continues this legacy by addressing the evolving challenges of urban redevelopment, environmental risk, and sustainable land use in Asia.

As cities accelerate their transition towards low-carbon, resilient, and inclusive development, brownfield sites present both significant risks and strategic opportunities. Brownfield Asia 2026 brings together policymakers, regulators, financiers, engineers, researchers, and industry practitioners to exchange knowledge, share case studies, and explore forward-looking solutions for contaminated land management.

With a strong focus on ESG integration, innovative remediation technologies, soil and groundwater contamination, and AI-driven brownfield transformation, this conference provides a multidisciplinary forum to align science-based risk management with sustainable redevelopment goals across the Asian context.

## WHY YOU MUST ATTEND THIS CONFERENCE

- **Learn from Regional and International Experts** Gain insights from leading professionals, researchers, and practitioners who are shaping brownfield policies, technologies, and financing models across Asia and beyond.
- **Stay Ahead of ESG and Regulatory Expectations** Understand how ESG-aligned financing, regulatory frameworks, and risk-sharing models are influencing brownfield redevelopment and project bankability.
- **Discover Innovative and Low-Carbon Solutions** Explore cutting-edge remediation technologies that move beyond traditional “dig-and-dump” approaches, focusing on cost efficiency, carbon reduction, and long-term sustainability.
- **Understand Soil and Groundwater Risk Management** Enhance your knowledge of contaminant behaviour, site investigation strategies, health and environmental risk assessment, and regulatory compliance requirements.
- **Experience the Future of Brownfield Transformation** Learn how AI, digital twins, satellite data, and real-time monitoring are transforming site screening, remediation optimisation, and ESG reporting.
- **Network with Decision-Makers and Industry Leaders** Connect with policymakers, consultants, developers, financiers, and academics—opening doors to collaboration, partnerships, and future projects.
- **Contribute to Knowledge and Professional Development** Present your research, share practical case studies, and be part of a peer-reviewed conference that contributes meaningfully to the advancement of environmental engineering and sustainable land development.

TIME	PROGRAMME - DAY 1
8:00 AM – 9:00 AM	Registration
9:00 AM – 9:10 AM	Welcome Address by the Organising Chairman

## Brownfield Asia 2026

International Conference on Remediation and Management of Contaminated Land : Focus on Asia

We are please to announce the Brownfield Asia 2026 will be held on 2nd - 3rd September 2026. This Prestigious event will bring together leading expert, researches and practitioners in the Field Environmental Engineering to share their latest research findings, Innovative practices and future trends.

### CONFERENCE THEMES

The organising committee of Brownfield Asia is calling for abstract submissions. The scopes of the conference include, but are not limited to the following topics:

#### 1. ESG & Sustainable Financing & Community Impact

- ESG-aligned financing instruments (green bonds, sustainability-linked loans, blended finance)
- Regulatory frameworks, liability management & risk-sharing models
- Community impact, social legitimacy & public trust
- International and regional case studies

#### 2. Innovative Remediation Technologies

- Moving beyond “dig-and-dump” remediation
- In-situ, hybrid and low-carbon remediation systems
- Technology selection based on site conditions & redevelopment goals
- Cost, carbon, scalability & delivery risk considerations

#### 3. Soil and ground water contamination

- Contaminant behaviour & subsurface risk pathways
- Site investigation strategies & data-driven decision-making
- Health & environmental risk assessment
- Regulatory compliance, closure criteria & long-term monitoring

#### 4. Ai Driven Brownfields transformation

- AI-based site screening & redevelopment prioritisation
- Contamination prediction & subsurface modelling
- Remediation optimisation, cost-risk modelling & ESG reporting
- Digital twins, satellite, drone & real-time monitoring systems
- Responsible AI, governance & regulatory acceptance

### SUBMISSION GUIDELINES

- Abstracts should be no more than 300 words and not exceeding two (2) pages.
- Full papers must be written in English and submitted in Microsoft Word and PDF file format.
- All submissions must be original and not previously published or under consideration for publication elsewhere.
- Papers will be peer-reviewed and accepted papers will be published in the conference proceedings.

### IMPORTANT DATES

Conference day	: 2 - 3 SEPT 2026
Abstract submission deadline	: 30 APRIL 2026
