4.0 MATTERS ARISING

4.1 Page 66
Item 5.13.1 – Issue No. 1

4.1.1 **Student members constitute a significant portion of the overall membership, and should it be removed, the overall IEM membership was considered very low. Hence, YBhg. Academician Tan Sri Datuk (Dr.) Hj. Ir. Ahmad Zaidee bin Laidin (HF01019) queried whether there were any actions had been taken to encourage more graduates and corporate members to join IEM and also on the new membership grades; Engineering Technologist and Engineering Technicians whether they had been included in the overall membership.**

The AGM was informed that Excomm had requested the Sub Committee on Membership Drive and Promotions (MDP) under the Standing Committee on Admissions and Practical Training (APT) to intensify their recruitment efforts, with particular focus on bulk recruitment on graduating students at the university level, as well as outreach to organisations for Corporate Membership.

With regards to Engineering Technologists and Engineering Technician memberships, AGM noted that the Engineering Technologists and Engineering Technician Sub Committee (ETSC) has formed a Taskforce on Recruitment–Polytechnics. It was further noted that this initiative would primarily target the recruitment of polytechnic students; in line with the Memorandum of Understanding (MoU) signed between IEM and the Department of Polytechnic and Community College Education (JPPKK) that was signed on 29 November 2023. President also informed AGM that this issue had also be highlighted to the Branches during the pre-Council dialogue meeting with the Branch representatives for them to also recruit more engineers as well as engineering technologists and engineering technicians to join IEM.

5.12 Questions and Answers

- 5.12.1 YBhg. Academician Tan Sri Dato' Seri Ir. Prof. Em. Dr. Chuah Hean Teik (DHF09157) commented that the list of the "FEIAP Engineer of the Year Award" on page 61 of the Annual Report was not updated. He further commented that Ir. Dr. Tan Yean Chin received the said award in 2024. President apologised on the oversight and agreed to include Ir. Dr. Tan Yean Chin's name in next year's Annual Report.

- 5.12.2 Ir. Dr. Yeoh Hak Koon (M15203) applauded the effort of the President to visit the IEM Branches and thereafter requested whether there were any key points recorded during his dialogue sessions with the Branches.

President informed that he would normally highlight on the membership as it was one important part for IEM as it has either been stagnant or decreasing. He further highlighted that the main drop was on the lapse of renewal. He suggested that one way was to have HQ to jointly arrange interesting activities at State levels so as to attract and reach out to more members to join IEM. He also felt that there should be activities where State government official and also from the industry should be invited to attend so as to create a good networking sessions.

- 5.12.3 Ir. Lim Beng Seng (M19253) raised a question via online on what steps were taken to encourage Student members towards their journey to become Graduate and thereafter as corporate members of IEM.

President then explained that student members were considered the core of IEM's membership. He stressed that the students should be guided right from the start of their engineering degree until completion. As such, he suggested that there was a need to have membership drive recruitment right before the students graduate as this would be an opportunity to capture these students and upgrade them to be Graduate members.

- 5.12.4 Ir. Choo Kok Beng (HF02828) commented that IEM should encourage international students to be part of the IEM Student Section. He felt that these students would eventually do business with Malaysians once they graduate. He further stressed that this would be an opportunity for Malaysia as majority of them especially students from China who were looking for avenues to work outside China. This would entail IEM to play a bigger role by opening the gateway for these students to come to Malaysia; from becoming a Student to Corporate members. He viewed that this would be a good opportunity for IEM to increase membership.

President supported Ir. Choo Kok Beng's comments and informed the AGM that this should not be an issue as IEM has been accepting foreign students to become Student and Graduate members. Moreover, majority of them were currently pursuing engineering degree programmes which are accredited by the Engineering Accreditation Council (EAC).

Hence, there would not be any issue for them to register as Graduate Engineers of BEM as well as become Graduate Members of IEM.

- 5.12.5 Ir. Dr. Tan Yean Chin (HF11712) pointed out that IEM is a permanent Secretariat for the Federation of Engineering Institutions of Asia-Pacific (FEIAP). He informed the AGM that FEIAP has an international register and is recognised within Asia-Pacific region.

He further suggested that once a Student member graduates and upgrades to Graduate Member of IEM, he/she would be able to use the title FEIAP Grad. Eng. (with no costs) behind the name thus making these Graduate members gaining international recognition within the Asia-Pacific region.

Ir. Dr. Tan Yean Chin (HF11712) further explained that these graduates would also be able to join online activities or training not only via IEM but on an international platform. He suggested that the IEM application form or e-form should also state what the graduate member is entitle too should he/she uses the FEIAP title. He felt that with such entitlement, there would be an increase in the conversion rate to Graduate members in the near future.

In response to Ir. Dr. Tan Yean Chin's comments, the President informed that the initiative is already ongoing and suggested that the Sub-Committee on Membership Drive and Promotions (MDP) conduct more IEM awareness programmes for IEM student members as well as the engineering students on the FEIAP Graduate Engineer title.

- 5.12.6 YBhg. Academician Tan Sri Dato' Seri Ir. Prof. Em. Dr. Chuah Hean Teik (DHF09157) commented that how would IEM be able entice Student members to voluntarily transfer to Graduate members. YBhg. Academician Tan Sri Dato' Seri Ir. Prof. Em. Dr. Chuah Hean Teik further explained that IEM should actually focus on organising interesting activities that would motivate the engineering students and at the same time provide awareness programmes on what IEM can do for them.

The President suggested that the Young Engineers Section (YES) consider separating its members into two distinct groups—Students and Graduates—so that each group could manage its own affairs independently. It was noted that both student and graduate members currently serve within YES, with graduates largely overseeing student-related matters. The President expressed the view that such a separation could be workable. Nevertheless, he agreed to raise the matter with the Excomm, particularly with regard to empowering student members to manage their own affairs.

5.12.7

Mr. Lim Yiren (G68058) was of the opinion that the issue on conversion of the Student members to Graduate should be the task of all members be it Council/Excomm/Branches or other Committees of IEM and not solely depend on one particular group. He stressed that it should be a collective effort.

Ir. Kim Kek Seong (F18825) informed that he assisted in forming a Student Section at Xiamen University. He commented that although the Student Advisor was an active person, the drawback is when the student graduates. He further informed that majority of the students were foreigners and upon graduation, they would return to their home country. Hence, there was no connectivity with these students once they graduate.

As such, Ir. Kim Kek Seong suggested that IEM should find ways to connect to these students so that they would remain and continue to upgrade to Graduate members as it would be an added advantage to IEM where membership was concerned. President suggested that MDP could look into this matter ensuring that the students be encouraged to upgrade their membership grade.

5.12.8

The Honorary Secretary then further read a few comments made by members who were online such as:

- (i) YBhg. Dato' Ir. (Dr.) Lee Yee Cheong (DHF00220) who suggested to include membership breakdown of the Distinguished Fellows in the Annual Report;
- (ii) Ir. Yee Cheze Hui, Jeffrey (M19294) proposed that engineering students be required to become Student Members of IEM. The President clarified that IEM is a professional learned society based on voluntary membership, whereas registration with the Board of Engineers, Malaysia (BEM) as a Graduate Engineer is compulsory under the Registration of Engineers Act 1967 (revised 2015). As such, he noted that it would not be appropriate to mandate engineering students to become Student Members of IEM.
- (iii) Ir. Lim Boon Hai (M17539) commented on the corporate discount for vehicles. The Honorary Secretary suggested that the Member could write in to the Standing Committee on Welfare and Member Services on the corporate discount rates.
- (iv) Ir. Dr. Eow John Son (M23840) queried on the fresh graduate engineer's salary and whether IEM could look into this issue. President reiterated that IEM would only be able to advise government authorities on this issue.
- (v) Ir. Khaw Wei Chuen (M66060) queried on the possibility of streamlining the registration of courses and other related matters. President explained that this was ongoing as IEM had already implemented online registration and membership applications. Nevertheless, President informed that IEM is still continuing to improve the system.
- (vi) Ir. Chuang Kuang Cherng (M92330) queried on whether there were any updates on the proposed amendments to the Registration of Engineers Act 1967 (revised 2015). President informed that this matter is currently ongoing with BEM, and the general members would be informed should there be any outcome from the discussion.
- (vii) Ir. Jung Fung Swee (M54110) queried on why there was a need to pay IEM talks that was conducted online and why two different rates. President explained that the non-member fee should be there mainly to encourage non-members to join as IEM members. Alternatively, it would defeat the purpose.
- (viii) Ir. Jagjeet Singh Sidhu a/l Charan Singh (M07146) suggested the following:
 - (a) *IEM as a professional learned society should work closely with major textbook publishers in order to obtain a discounted rate be it hard-copy or in PDF for the IEM members including Student members*
 - (b) *Promotion-Video on Demand – introduction learning by vendors on the latest engineering software could draw additional income for IEM*

President, nevertheless, informed the AGM that some of these issues raised would be forwarded to the various Standing Committees/Sub Committees for their onward action.

5.12.9

The AGM also noted that the attendance list for the previous AGM had not been properly prepared. It was observed that, while the list in prior years was arranged in alphabetical order, the current year's list had been organised by membership number. Nevertheless, the President assured that the format would be reverted to the previous alphabetical arrangement for inclusion in next year's annual report.

5.12.10

Ir. Meheron a/l Selowara Joo (M30635) highlighted that IEM should focus on engaging the Deans of engineering faculties at Institutions of Higher Learning (IHLs) to better attract and encourage students to join IEM. The President concurred with this view, agreeing that IEM ought to collaborate with these Deans to promote student membership. The President also expressed appreciation to Ir. Meheron, Chairman of MDP, for his continued dedication and efforts in increasing IEM's membership.

As there were no further comments or questions from the floor and as well as via online, YBhg. Dato' Ir. Prof. Dr. Norlida binti Buniyamin (F13746) proposed that the Honorary Report be adopted. The motion was seconded by YBhg. Academician Tan Sri Dato' Seri Ir. Prof. Dr. Chuah Hean Teik (DHF09157).

It was also noted that the income of the Standing Committee on Corporate Affairs (CA) declined, primarily due to the purchase of tables at annual dinners hosted by sister organisations and institutions.

Additionally, it was highlighted that profits generated from IEM's annual dinner would henceforth be used to purchase tables at other organisations' annual dinners as part of a reciprocal arrangement.

6.5 The Honorary Treasurer then reported on the total expenses for 2024 was RM4,951,888 a decrease of 4.6% compared to 2023 which was RM5,192,592.

6.10.2 Ir. Mohd Radzi bin Salleh (F20112) seek clarification on the contribution of the Standing Committee particularly on Admissions and Practical Training (APT) concerning the collection received for the structured training programme. He commented he was involved in the said programme ensuring that the clients/sub-contractor from Malaysian Resources Corporation Berhad (MRCB) to pay IEM accordingly. He further commented that the collection received should be more than the figure reflected in the presentation slide, which was RM191,800.

The Honorary Treasurer explained that the half of the income had been reflected in 2023 and the other half in 2024. He then thanked Ir. Mohd Radzi for his effort to ensure that all the collection had been received from the participants had been resolved beginning of 2024. However, Ir. YBhg. Academician Tan Sri Dato' Seri Ir. Prof. Dr. Chuah Hean Teik (DHF09157) further clarified that cash flow and profit and loss are distinct matters, and that the collection had already been recorded in the previous year's profit and loss account.

6.10.3 Ir. Loo Chee Kin (M15863) commented that the loan for Wisma IEM had been fully paid and as such, IEM should not be collecting tokens for the talks. Instead, he felt that IEM should do away with the tokens and not charge for talks and webinars.

The Honorary Treasurer clarified that was a still a need to impose the administrative fee especially for maintaining the building. President also interjected that it was not possible to have free webinars and talks as there was a need to cater for refreshments as well as staff's salary and other related expenses.

6.10.4 Ir. Awangku Hidup bin Awangku Hosain (F03053) queried whether IEM has any projects for public community services especially for retired engineers or hard-core underprivileged groups. He said previously the graduate and student section (G&S) used to conduct community service programmes.

The President explained that IEM has a Corporate Social Responsibility (CSR) programme, which was recently carried out during Engineering Week. The programme included an initiative for Orang Asli schools led by the Immediate Past President (IPP), YBhg. Dato' Ir. Prof. Dr. Norlida binti Buniyamin. It was noted that IEM continues to undertake such activities and is actively seeking sponsorship to support the CSR programme.

6.10.5 There was a comment made online by Ir. Cheong Yoon Kwan (M15455) on reducing administrative fee for the talks. However, President informed that the fees for talks were reasonably low which was RM15.

Prof. Dr. Norlida binti Buniyamin (F13746) congratulated on the renovation of the resource centre and enquired whether there would be opportunities for sponsorship through room naming, as well as the rental of rooms upon completion of the new resource centre at Wisma IEM. She further suggested that the facilities be offered to members first before being made available to the public. In response, the President assured that an announcement would be made once the renovation is completed.

8.0 DISCUSSION ON WRITTEN ISSUES RECEIVED FROM MEMBERS

8.1 The AGM was informed that there were two (2) written issues received from the members:

Written Issue 1

Concerns Regarding Distinguished Engineer Award of IEM Penang Branch from YBhg. Dato' Ir. Ng Sin Chie via email dated 10 March 2025.

President informed the AGM that there was an email received on 10 March 2025 from YBhg. Dato' Ir. Ng Sin Chie. Based on the email, YBhg. Dato Ir. Ng Sin Chie expressed significant concerns regarding the Distinguished Engineer Award presented at the Penang Branch's AGM held on 8 March 2025.

YBhg. Dato' Ir. Ng Sin Chie further informed in his email that the said award had been in place since 2008 or 2009. Traditionally, the award was announced and presented during the Branch's Annual Dinner by the President, with the Branch Chairman in attendance. As such, YBhg. Dato' Ir. Ng Sin Chie inquired on the following:

- (i) *HQ is aware of this award?*
- (ii) *Has it been formally approved and consented to by HQ?*
- (iii) *If not, what corrective measures or actions should the Branch undertake to address this matter appropriately?*

President then asked whether YBhg. Dato' Ir. Ng Sin Chie was online. However, since there was no response, President read out the full email from YBhg. Dato' Ir. Ng Sin Chie.

President briefed the AGM that he was present at the Branch's AGM. It was noted that President was requested to be at the AGM to mediate/assist in the judging. He informed that during the Penang Branch's AGM, a member raised a resolution to abolish the said award. Moreover, it was noted that there was no Distinguished Engineer Award in the IEM Constitution. Hence, the Branch AGM voted to abolish the said award.

President then responded to the three (3) questions raised by YBhg. Dato' Ir. Ng Sin Chie as mentioned above:

- (i) *HQ was not aware of this award as there was no written information*
- (ii) *Since there was no written information from the Branch, hence, it was not possible for HQ to approve the said award*
- (iii) *the resolution to abolish was done accordingly during the Branch AGM and it was presented and voted upon of which majority of the members were agreeable to abolish the Distinguished Engineer Award*

President reiterated that this should be in line with the IEM Constitution. He then asked the AGM for any questions:

- 8.1.1 YBhg. Academician Tan Sri Dato' Seri Ir. Prof. Dr. Chuah Hean Teik (DHF09157) declared his interest as a recipient of the Distinguished Engineer Award. He subsequently raised two points: firstly, he noted that the Distinguished Member designation is a membership grade as stipulated in the IEM Constitution, rather than an award. Secondly, he informed the AGM that such awards are typically conferred by the Excomm or Council, while the IEM Constitution only specifies the classes or categories of membership.

Secondly, YBhg. Tan Sri stated that it was not appropriate for the Branch to table a resolution to abolish the Distinguished Engineer Award at the AGM, as such a decision should instead be made at a Special General Meeting. He opined that this would be unfair to the general members of the Penang Branch, as they may not have been aware of the motion to abolish the award or the voting process.

- 8.1.2 YBhg. Dato' Paduka Ir. (Dr.) Hj. Keizrul bin Abdullah (HF01691) proposed that Council should deliberate the issue of whether to allow the Branch to have their own awards since the award is from IEM.
- 8.1.3 Ir. Ong Ching Loon (HF11938) was of the opinion that the Distinguished Engineer Award by the Penang Branch should be continued. He felt that the decision made during the AGM should stand. Alternatively, the Branch could conduct an Emergency General Meeting (EGM).
- 8.1.4 Ir. Cader Mohideen Mohamed Aboobucker (M13942) remarked that the award was primarily intended as a recognition of an engineer's contributions to the field. He further added that HQ should be supportive of the Branch, as it is honouring members for their contributions.
- 8.1.5 Ir. Dr. Lee Choo Yoong (F29738) who was the current Chairman of the Penang Branch explained that the Distinguished Engineer Award was not conferred on monetary terms. The conferment was mainly to recognise engineers that have contributed to the engineering sector as well as for the Penang State.
- 8.1.6 YBhg. Ir. Ting Chek Choon (F24754) reiterated Ir. Dr Lee Choo Yong's statement that the main idea is to acknowledge the person's contribution toward the growth of Penang. YBhg. Ir. Ting Chek Choon also agreed that it does not contradict the IEM Constitution.

- 8.1.7 Ir. Mohd Radzi bin Salleh (F20112) was of the opinion that the Branch should notify the HQ of such award.
- 8.1.8 YBhg. Academician Tan Sri Dato' Seri Ir. Prof. Dr. Chuah Hean Teik (DHF09157) also suggested that the Branch should have a special general meeting.
- 8.1.9 Ir. Gopal Narian Kutty (F11291) was of the opinion that there should be proper Standard Operating Procedures (SOP) / guidelines for the Branches for them to create their own award.

The President, having considered the comments and suggestions raised by several members, proposed that the Branch resolve the matter amicably by convening a special general meeting to gather feedback from its general members. He emphasized that the decision on the next course of action should ultimately rest with the Branch.

8.2

Written Issue 2
STEM Initiative

Received from Ir. Sukhairul Nizam bin Abdul Razak via email dated 10 April 2025

President invited Ir. Sukhairul Nizam bin Abdul Razak (M48536) to address his written issue to the AGM. Ir. Sukhairul Nizam commented that there should be a collaborative effort from IEM instead of only particular group to initiate STEM activities. He further commented that there should be less focus on the welfare of the stakeholders but to look deeper into the students' alumni. Although he serves as the Secretary for the Engineering Education Technical Division (E2TD), he felt that E2TD may not be able to solve some of pressing challenges within Malaysia's engineering sector, particularly in the areas of STEM education, job creation, and engineer remuneration.

President thanked Ir. Sukhairul for his comments and proposed that he would have a dialogue session with E2TD to address this issue so that it could be settled within E2TD.

Jika ada permintaan untuk mendapatkan kelulusan, ahli-ahli yang menghadiri secara dalam talian boleh memilih setuju/tidak setuju dengan mengklik ikon “raise hand” sekali lagi.

4.1 **Mukasurat 66** **Perkara 5.13.1 – Isu No. 1**

4.1.1

Memandangkan ahli siswa merupakan sebahagian besar daripada jumlah keseluruhan keahlian dan sekiranya ia dikeluarkan, keseluruhan keahlian IEM akan dianggap sangat rendah, maka YBhg. Academician Tan Sri Datuk (Dr.) Hj. Ir. Ahmad Zaidee bin Laidin (HF01019) bertanya sama ada sebarang tindakan telah diambil bagi menggalakkan lebih ramai graduan dan Ahli Korporat menyertai IEM termasuk keahlian gred baharu; Engineering Technologist dan Engineering Technicians, sama ada jumlah keahlian tersebut telah dimasukkan ke dalam jumlah keseluruhan keahlian.

MAT dimaklumkan bahawa Excomm telah meminta Sub-Committee on Membership Drive and Promotions (MDP) di bawah Standing Committee on Admissions and Practical Training (APT) untuk mempergiat usaha pengambilan ahli, dengan tumpuan khusus kepada pengambilan secara pukal dalam kalangan siswa tahun akhir di universiti serta jangkauan kepada organisasi bagi keahlian korporat.

Berhubung keahlian Engineering Technologist dan Engineering Technician, MAT mengambil maklum bahawa Jawatankuasa Kecil Juruteknologi dan Juruteknik Kejuruteraan (ETSC) telah menubuhkan "Taskforce on Recruitment – Polytechnics". MAT seterusnya mengambil maklum bahawa inisiatif ini akan memberi tumpuan utama kepada pengambilan pelajar politeknik, selaras dengan Memorandum Persefahaman (MoU) yang ditandatangani antara IEM dan Jabatan Pendidikan Polytechnic and Kolej Komuniti (JPPKK) pada 29 November 2023. Yang DiPertua turut memaklumkan bahawa isu ini juga telah dibangkitkan kepada Cawangan semasa dialog pra-Majlis bersama wakil cawangan supaya mereka turut merekrut lebih ramai jurutera, teknologis jurutera dan juruteknik jurutera untuk menyertai IEM.

MAT dimaklumkan bahawa Jawatankuasa Eksekutif telah memutuskan bahawa Yang DiPertua akan diberi kelonggaran untuk memutuskan samada beliau ingin dicalonkan sebagai wakil IEM.

Pertanyaan mengenai status bayaran balik cukai daripada ITA-AITES World Tunnelling Congress 2020 (WTC2020), 11-12 September 2020 di Kuala Lumpur Convention Centre.

MAT mengambil maklum bahawa bayaran balik cukai daripada LHDN adalah sebanyak RM539,460 dan jumlah tersebut akan dipulangkan kepada IEM pada tahun ini.

Yang DiPertua seterusnya memaklumkan MAT bahawa beliau sepatutnya meminta hadirin bertafakur selama satu (1) minit sebagai tanda penghormatan kepada Honorary Fellow IEM yang juga bekas Perdana Menteri, Allahyarham Tun Abdullah Ahmad Badawi, sebelum permulaan MAT. Allahyarham Tun Abdullah Ahmad Badawi telah meninggal dunia pada 14 April 2025.

Setiasaha Kehormat seterusnya memaklumkan bahawa sekiranya mana-mana ahli ingin menghubungi urusetia tertentu, beliau boleh menghantar e-mel atau menelefon bagi membuat janji temu.

5.12 **Sesi Soal Jawab**

5.12.1 YBhg. Academician Tan Sri Dato' Seri Ir. Prof. Em. Dr. Chuah Hean Teik (DHF09157) mengulas bahawa senarai FEIAP Engineer of the Year Award pada muka surat 61 Laporan Tahunan tidak dikemas kini. Beliau seterusnya mengulas bahawa Ir. Dr Tan Yean Chin menerima anugerah tersebut pada tahun 2024. Yang DiPertua memohon maaf atas kekhilafan tersebut dan bersetuju untuk memasukkan nama Ir. Dr Tan Yean Chin dalam Laporan Tahunan tahun hadapan.

5.12.2 Ir. Dr Yeoh Hak Koon (M15203) memuji usaha Yang DiPertua melawat Cawangan dan seterusnya bertanya sama ada terdapat perkara-perkara utama yang direkodkan semasa sesi dialog beliau dengan Cawangan.

Yang Dipertua memaklumkan bahawa beliau lazimnya menekankan isu keahlian kerana ia merupakan satu komponen penting bagi IEM walaupun ia tidak berubah atau menunjukkan penurunan. Beliau turut menekankan bahawa penurunan utama adalah pada kegagalan memperbaharui keahlian. Beliau mencadangkan agar HQ bersama-sama menganjurkan aktiviti menarik di peringkat negeri untuk menarik dan mendekati lebih ramai ahli menyertai IEM. Beliau juga berpendapat bahawa aktiviti perlu melibatkan pegawai kerajaan negeri dan pihak industri supaya dapat mewujudkan sesi jaringan yang baik.

5.12.3 Ir. Lim Beng Seng (M19253) mengemukakan soalan secara dalam talian mengenai langkah-langkah yang diambil untuk menggalakkan ahli siswa dalam perjalanan mereka menjadi ahli siswazah dan seterusnya ahli korporat di IEM.

Yang Dipertua menjelaskan bahawa ahli siswa dianggap sebagai teras keahlian IEM. Beliau menegaskan bahawa para pelajar perlu dibimbing dari awal pengajian ijazah kejuruteraan sehingga tamat. Oleh itu, beliau mencadangkan perlunya usaha pengambilan keahlian dijalankan sejurus sebelum pelajar menamatkan pengajian agar peluang ini dapat dimanfaatkan untuk menaik taraf mereka menjadi ahli siswazah.

5.12.4 Ir. Choo Kok Beng (HF02828) mengulas bahawa IEM perlu menggalakkan pelajar antarabangsa menjadi sebahagian daripada IEM Seksyen Pelajar. Beliau berpendapat bahawa para pelajar ini akhirnya akan menjalankan perniagaan dengan rakyat Malaysia selepas tamat pengajian. Beliau seterusnya menegaskan bahawa ini merupakan peluang untuk Malaysia memandangkan majoriti mereka, khususnya pelajar dari China yang mencari saluran untuk bekerja di luar China. Ini memerlukan IEM memainkan peranan yang lebih besar dengan membuka pintu kepada pelajar tersebut untuk datang ke Malaysia, bermula sebagai Student sehingga menjadi ahli Corporate. Beliau melihat ini sebagai peluang baik untuk IEM meningkatkan jumlah keahlian.

Yang Dipertua menyokong ulasan tersebut dan memaklumkan MAT bahawa perkara ini sepatutnya tidak menjadi masalah kerana IEM telah menerima pelajar asing sebagai ahli siswa dan siswazah. Tambahan pula, majoriti mereka kini mengikuti program ijazah kejuruteraan yang diakreditasi oleh Engineering Accreditation Council (EAC). Oleh itu, tidak akan timbul sebarang isu bagi mereka untuk berdaftar sebagai ahli siswazah dengan BEM serta IEM.

5.12.5 Ir. Dr Tan Yean Chin (HF11712) memberitahu bahawa IEM ialah Sekretariat tetap bagi Federation of Engineering Institutions of Asia-Pacific (FEIAP). Beliau memaklumkan MAT bahawa FEIAP mempunyai daftar antarabangsa dan diiktiraf di rantau Asia-Pasifik.

Ir. Dr Tan Yean Chin seterusnya menjelaskan bahawa para graduan tersebut juga dapat menyertai aktiviti atau latihan dalam talian bukan sahaja melalui IEM tetapi juga di platform antarabangsa. Beliau mencadangkan supaya borang permohonan atau borang elektronik IEM turut nyatakan dengan jelas kelayakan dan keistimewaan yang berhak dinikmati oleh ahli siswazah sekiranya gelaran FEIAP digunakan. Beliau merasakan bahawa dengan keistimewaan diberikan boleh meningkatkan kadar peralihan kepada ahli siswazah dalam masa terdekat.

Promotions (MDP) menjalankan lebih banyak program kesedaran IEM kepada ahli siswa IEM serta pelajar kejuruteraan mengenai gelaran FEIAP Graduate Engineer.

Sebagai respons kepada ulasan tersebut, Yang Dipertua memaklumkan bahawa inisiatif ini sedang berjalan dan mencadangkan supaya Sub-Committee on Membership Drive and Beliau seterusnya mencadangkan bahawa sebaik sahaja seorang ahli Student tamat pengajian dan menaik taraf ke ahli siswazah IEM, ahli tersebut boleh menggunakan gelaran FEIAP Grad. Eng. (tanpa sebarang kos) di belakang nama, sekali gus memberikan pengiktirafan antarabangsa dalam rantau Asia-Pasifik.

- 5.12.6 YBhg. Academician Tan Sri Dato' Seri Ir. Prof. Em. Dr Chuah Hean Teik (DHF09157) mengulas bagaimana IEM dapat menarik ahli siswa untuk secara sukarela bertukar menjadi ahli siswazah.

Beliau menjelaskan bahawa IEM perlu menumpukan kepada penganjuran aktiviti-aktiviti menarik yang dapat memotivasikan pelajar kejuruteraan dan pada masa yang sama menyediakan program kesedaran mengenai apa yang IEM boleh lakukan untuk mereka.

Yang Dipertua mencadangkan agar Young Engineers Section (YES) mempertimbangkan pemisahan ahli kepada dua kumpulan yang berasingan – siswa dan siswazah, dimana setiap kumpulan dapat mengurus hal ehwal mereka sendiri secara bebas. MAT mengambil maklum bahawa kedua-dua ahli siswa dan siswazah kini berkhidmat dalam YES, dimana mereka yang mengendalikan perkara berkaitan hal ehwal pelajar. Yang DiPertua berpendapat bahawa pemisahan sedemikian mungkin boleh dilaksanakan. Walau bagaimanapun, beliau bersetuju untuk membawa perkara ini kepada Excomm, khususnya berhubung memperkasa ahli siswa untuk mengurus hal ehwal mereka sendiri.

- 5.12.7 Encik Lim Yiren (G68058) berpendapat bahawa isu pertukaran ahli siswa kepada siswazah seharusnya menjadi tugas semua ahli sama ada Majlis/Excomm/Cawangan atau jawatankuasa-jawatankuasa lain dalam IEM dan bukan bergantung kepada satu kumpulan ahli sahaja. Beliau menegaskan bahawa ia sepatutnya menjadi usaha secara kolektif.

Ir. Kim Kek Seong (F18825) memaklumkan bahawa beliau telah membantu menubuhkan Unit Pelajar di Universiti Xiamen. Beliau mengulas bahawa walaupun Penasihat Pelajar sangat aktif, kelemahannya adalah apabila pelajar telah tamat pengajian. Beliau seterusnya memaklumkan bahawa majoriti pelajar adalah warga asing dan selepas tamat pengajian, mereka akan kembali ke negara asal. Justeru, tiada hubungan berterusan dengan pelajar-pelajar tersebut selepas mereka tamat belajar. Oleh itu, Ir. Kim Kek Seong mencadangkan agar IEM mencari jalan untuk terus berhubung dengan para pelajar ini supaya mereka kekal dan terus menaik taraf menjadi ahli siswazah kerana ia akan menjadi kelebihan tambahan kepada IEM dari sudut keahlian. Yang DiPertua mencadangkan agar MDP meneliti perkara ini supaya pelajar digalakkan menaik taraf gred keahlian mereka.

- 5.12.8 Setiausaha Kehormat kemudiannya membacakan beberapa ulasan yang dibuat oleh ahli secara dalam talian seperti berikut:

- (i) YBhg Dato' Ir. (Dr.) Lee Yee Cheong (DHF00220) mencadangkan supaya pecahan keahlian bagi Felo Kehormat dimasukkan dalam Laporan Tahunan;
- (ii) Ir. Yee Cheze Hui, Jeffrey (M19294) mencadangkan supaya pelajar kejuruteraan diwajibkan menjadi ahli siswa IEM. Yang DiPertua menjelaskan bahawa IEM ialah pertubuhan profesional berasaskan keahlian sukarela, manakala pendaftaran dengan Board of Engineers, Malaysia (BEM) sebagai Graduate Engineer adalah wajib di bawah Registration of Engineers Act 1967 (revised 2015). Oleh itu, beliau mengambil maklum bahawa adalah tidak sesuai untuk mewajibkan pelajar kejuruteraan menjadi ahli siswa IEM;
- (iii) Ir. Lim Boon Hai (M17539) mengulas mengenai diskaun korporat untuk kenderaan. Setiausaha Kehormat mencadangkan supaya ahli menulis kepada Standing Committee on Welfare and Member Services mengenai kadar diskaun korporat;
- (iv) Ir. Dr. Eow John Son (M23840) bertanya tentang gaji jurutera graduan baharu dan sama ada IEM boleh meneliti isu ini. Yang DiPertua menegaskan bahawa IEM hanya boleh menasihati pihak berkuasa kerajaan mengenai isu ini;
- (v) Ir. Khaw Wei Chuen (M66060) bertanya tentang kemungkinan memperkemas pendaftaran kursus dan perkara-perkara berkaitan yang lain. Yang DiPertua menjelaskan bahawa perkara ini sedang berjalan kerana IEM telah pun melaksanakan pendaftaran dalam talian dan permohonan keahlian. Namun begitu, beliau memaklumkan bahawa IEM masih akan terus menambah baik sistem;
- (vi) Ir. Chuang Kuang Cherng (M92330) bertanya sama ada terdapat sebarang kemas kini mengenai cadangan pindaan kepada Registration of Engineers Act 1967 (revised 2015). Yang DiPertua memaklumkan bahawa perkara ini masih berjalan dengan BEM dan semua ahli akan dimaklumkan sekiranya ada sebarang hasil daripada perbincangan tersebut;

- (vii) Ir. Jung Fung Swee (M54110) bertanya mengapa perlu membayar untuk ceramah IEM yang dijalankan secara dalam talian dan mengapa terdapat dua kadar berbeza. Yang DiPertua menjelaskan bahawa yuran bukan ahli perlu dikekalkan terutamanya untuk menggalakkan bukan ahli menyertai IEM. Jika tidak, ia akan menjejaskan tujuan asal tersebut;
- (viii) Ir. Jagjeet Singh Sidhu a/l Charan Singh (M07146) mencadangkan perkara berikut:
 - (a) IEM sebagai pertubuhan profesional perlu bekerjasama rapat dengan penerbit buku teks utama untuk mendapatkan kadar diskaun sama ada naskhah bercetak atau PDF bagi ahli IEM termasuk ahli siswa.
 - (b) Promosi-Video on Demand - pengenalan pembelajaran oleh vendor mengenai perisian kejuruteraan terkini boleh menjana pendapatan tambahan untuk IEM

Yang Dipertua walau bagaimanapun memaklumkan MAT bahawa sebahagian isu yang dibangkitkan akan dirujuk kepada Standing Committees/Sub Committees yang berkaitan untuk tindakan lanjut.

5.12.9 MAT turut mengambil maklum bahawa senarai kehadiran bagi MAT terdahulu tidak disediakan dengan sempurna. Diperhatikan bahawa, walaupun senarai pada tahun-tahun terdahulu disusun mengikut abjad, senarai tahun semasa telah disusun mengikut nombor keahlian. Walau bagaimanapun, Yang Dipertua memberi jaminan bahawa format tersebut akan dikembalikan kepada susunan abjad untuk dimasukkan dalam laporan tahunan untuk tahun hadapan.

5.12.10 Ir. Meheron a/l Selowarajoo (M30635) menekankan bahawa IEM perlu memberi tumpuan kepada penglibatan Dekan fakulti kejuruteraan di Institusi Pengajian Tinggi (IPT) untuk menarik dan menggalakkan pelajar menyertai IEM. Yang Dipertua bersetuju dengan pandangan ini dan mengakui bahawa IEM perlu bekerjasama dengan para Dekan tersebut bagi mempromosikan keahlian pelajar. Yang DiPertua turut merakamkan penghargaan kepada Ir. Meheron, Pengerusi MDP, atas dedikasi dan usaha berterusan beliau dalam meningkatkan keahlian IEM.

Memandangkan tiada lagi ulasan atau soalan daripada hadirin sama ada dari lantai mahupun dalam talian, YBhg. Dato' Ir. Prof. Dr Norlida binti Bunyamin (F13746) mencadangkan supaya Honorary Report diterima pakai. Cadangan tersebut disokong oleh YBhg. Academician Tan Sri Dato' Seri Ir. Prof. Dr. Chuah Hean Teik (DHF09157).

6.0 AKAUN BAGI TAHUN BERAKHIR 31 DISEMBER 2024

Yang Dipertua kemudian menjemput Bendahari Kehormat, Ir. Dr. Siow Chun Lim, untuk membentangkan penyata kewangan The Institution of Engineers, Malaysia bagi tempoh 1 Januari 2024 hingga 31 Disember 2024. Ir. Dr. Siow Chun Lim memaklumkan MAT bahawa akaun yang dibentangkan meliputi muka surat 204 hingga 234 dan akan dibentangkan kepada dua bahagian; Penyata Kewangan IEM dan Dana Pendidikan IEM.

Bendahari Kehormat seterusnya memaklumkan MAT bahawa penyata kewangan yang dibentangkan terdiri daripada tiga (3) set akaun, iaitu akaun IEM, IEM Training Academy Sdn. Bhd. (IEMTA), dan IEM Academy Sdn. Bhd. (IEMASB). MAT mengambil maklum bahawa penyata kewangan Cawangan telah digabungkan. Akaun IEM, IEMTA dan IEMASB kemudiannya disatukan oleh juruaudit.

- 6.1 Bendahari Kehormat melaporkan bahawa jumlah pendapatan bagi tahun 2024 adalah kira-kira RM5,314,863, iaitu penurunan sebanyak 0.71% berbanding 2023 sebanyak RM5,043,266.
- 6.2 Bendahari Kehormat seterusnya melaporkan bahawa berdasarkan perbandingan pendapatan, terdapat peningkatan sebanyak RM352,051 daripada ENGINEER Exhibition & IEM Convention. Bagi pendapatan langganan pula, terdapat peningkatan sebanyak 1.6% bagi langganan tahunan. Walau bagaimanapun, terdapat penurunan sebanyak 14.7% bagi tunggakan langganan manakala pengaktifan semula langganan meningkat sebanyak 81.9%.
- 6.3 MAT turut dimaklumkan bahawa bagi kutipan langganan, terdapat peningkatan peratusan kutipan sebanyak 2.2% pada tahun 2024 berbanding tahun 2023.
- 6.4 Bendahari Kehormat seterusnya melaporkan bahawa berdasarkan prestasi pelbagai Jawatankuasa, Jawatankuasa Eksekutif Kewangan mencatatkan defisit sebanyak RM18,751 pada tahun 2024, terutamanya disebabkan sesi latihan yang dijalankan bersama urusetia Cawangan dengan kos kira-kira RM10,000.

Turut diambil maklum bahawa pendapatan Jawatankuasa Hal Ehwal Korporat (CA) menurun, terutamanya disebabkan pembelian meja di majlis makan malam tahunan yang dianjurkan oleh organisasi dan institusi seumpama. Di samping itu, ditegaskan bahawa keuntungan yang dijana daripada majlis makan malam tahunan IEM akan digunakan selepas ini untuk membeli meja di makan malam tahunan organisasi lain sebagai sebahagian daripada pengaturan timbal balik.

6.5 Bendahari Kehormat kemudian melaporkan bahawa jumlah perbelanjaan bagi tahun 2024 ialah RM4,951,888, iaitu penurunan sebanyak 4.6% berbanding 2023 yang berjumlah RM5,192,592. Penyumbang utama kepada perbelanjaan ialah emolumen kakitangan (52.5%), penyelenggaraan bangunan (18.1%), subsidi Cawangan (10.1%), perbelanjaan pentadbiran (12.7%), yuran langganan dihapus kira (4.4%), susut nilai peralatan (1.9%) dan pelbagai perbelanjaan (0.4%).

6.6 Bendahari Kehormat selanjutnya melaporkan bahawa berdasarkan perbandingan perbelanjaan, terdapat penurunan 2.5% pada emolumen peribadi (disebabkan pengurangan bilangan staf dan perbelanjaan team-building), 28.7% pada subsidi cawangan (kemudahan IT telah disalurkan), 10.7% pada yuran langganan dihapus kira serta pelbagai perbelanjaan sebanyak 9.6%. satu-satunya peningkatan adalah pada perbelanjaan pentadbiran (1%), kos penyelenggaraan bangunan (5.1%) dan susut nilai (4.6%).

6.7 MAT dimaklumkan bahawa prestasi keseluruhan menunjukkan lebih sebanyak RM362,975 berbanding RM160,039 pada tahun 2023, iaitu peningkatan kira-kira RM200,000 yang menunjukkan prestasi lebih baik berbanding tahun lalu. Bendahari Kehormat kemudian mengucapkan terima kasih kepada para ahli atas sokongan dan sumbangan mereka kepada IEM.

6.8 Berhubung prestasi subsidiari, MAT dimaklumkan bahawa terdapat defisit sebanyak RM20,848 (sebelum cukai). Walau bagaimanapun, terdapat keuntungan daripada bayaran balik cukai WTC2020 berjumlah RM346,357.

MAT mengambil maklum bahawa IEM Academy Sdn Bhd mencatat kerugian bersih RM7,783 disebabkan bayaran kepada juruaudit untuk mengekalkan akaun.

6.9 MAT mengambil maklum prestasi Subsidiari / Cawangan.

6.10 **Sesi Soal Jawab**

6.10.1 YBhg. Academician Tan Sri Dato' Seri Ir. Prof. Dr. Chuah Hean Teik (DHF09157) mengemukakan soalan sama ada IEM menerima unqualified statement. MAT dimaklumkan bahawa ia disahkan sebagai unqualified statement.

6.10.2 Ir. Mohd Radzi bin Salleh (F20112) memohon penjelasan mengenai sumbangan Standing Committee khususnya Admissions and Practical Training (APT) berkenaan kutipan yang diterima bagi program latihan berstruktur. Beliau mengulas bahawa beliau terlibat dalam program tersebut bagi memastikan klien/sub-kontraktor daripada MRCB membuat bayaran sewajarnya kepada IEM. Beliau seterusnya mengulas bahawa kutipan yang diterima sepatutnya melebihi angka yang ditunjukkan dalam slaid pembentangan iaitu RM191,800.

Bendahari Kehormat menjelaskan bahawa separuh daripada pendapatan telah direkodkan pada tahun 2023 dan separuh lagi pada tahun 2024. Beliau kemudian mengucapkan terima kasih kepada Ir. Mohd Radzi atas usaha beliau memastikan semua kutipan daripada peserta berjaya diselesaikan pada awal tahun 2024. Namun begitu, Ir. Mohd Radzi bin Salleh menyatakan bahawa beliau mengingati jumlah keseluruhan kutipan adalah kira-kira RM900,000. Walau bagaimanapun, Yang DiPertua mencadangkan agar salinan rekod kutipan dihantar kepadanya.

YBhg. Academician Tan Sri Dato' Seri Ir. Prof. Dr. Chuah Hean Teik seterusnya menjelaskan bahawa aliran tunai dan untung rugi adalah dua perkara yang berbeza, dan kutipan tersebut telah pun direkodkan dalam akaun untung rugi tahun sebelumnya.

6.10.3 Ir. Loo Chee Kin (M15863) mengulas bahawa pinjaman bagi Wisma IEM telah dibayar sepenuhnya dan oleh itu IEM tidak seharusnya mengutip token bagi ceramah. Sebaliknya, beliau merasakan IEM patut menghapuskan token dan tidak mengenakan caj bagi ceramah dan webinar.

Bendahari Kehormat menjelaskan bahawa masih terdapat keperluan untuk mengenakan yuran pentadbiran khususnya bagi penyelenggaraan bangunan. Yang DiPertua turut menjelaskan bahawa webinar dan ceramah tidak akan diberikan secara percuma kerana perlu menampung jamuan ringan, gaji staf serta perbelanjaan berkaitan lain.

6.10.4 Ir. Awangku Hidup bin Awangku Hosain (F03053) bertanya sama ada IEM mempunyai projek khidmat masyarakat khususnya untuk jurutera bersara atau golongan susah tegar. Beliau menyatakan bahawa sebelum ini seksyen siswa dan siswazah (G&S) pernah menjalankan program khidmat masyarakat.

Yang Dipertua menjelaskan bahawa IEM mempunyai program Tanggungjawab Sosial Korporat atau CSR, yang baru-baru ini dilaksanakan semasa Minggu Kejuruteraan. Program tersebut termasuk inisiatif untuk sekolah Orang Asli yang dipimpin oleh Mantan Yang DiPertua (IPP), YBhg. Dato' Ir. Prof. Dr Norlida binti Buniyamin. MAT mengambil maklum bahawa IEM terus menjalankan aktiviti sedemikian dan sedang aktif dalam mendapatkan penajaan untuk menyokong program tersebut.

6.10.5 Terdapat komen yang dibuat secara dalam talian oleh Ir. Cheong Yoon Kwan (M15455) mengenai pengurangan yuran pentadbiran bagi ceramah. Walau bagaimanapun, Yang DiPertua memaklumkan bahawa yuran ceramah adalah munasabah rendah iaitu RM15.

Memandangkan tiada lagi soalan dikemukakan, Bendahari Kehormat menyampaikan terima kasih kepada Sekretariat Kewangan, Ms. Samantha Hee, Ms. Karen dan Ms. Chan Ee Wey atas bantuan mereka dalam menjaga hal-hal kewangan Institusi.

Disebabkan lebihan tersebut, Bendahari Kehormat turut membentangkan secara ringkas projek-projek yang telah disiapkan pada tahun 2024 di Wisma IEM seperti berikut:

- GETD Room Speaker System Upgrade

Bendahari Kehormat kemudian mengucapkan terima kasih kepada Sekretariat, Mr. Loo dan En. Baharuddin atas perkara berkaitan pengubahsuaian seperti mendapatkan sebut harga dan memastikan kerja-kerja dilaksanakan sewajarnya seperti yang dicadangkan oleh Sub Committee on Infrastructure.

Berhubung perkara di atas, YBhg. Dato' Ir. Prof. Dr Norlida binti Buniyamin (F13746) mengucapkan tahniah atas pengubahsuaian pusat sumber dan bertanya sama ada terdapat peluang penajaan melalui penamaan bilik, serta penyewaan bilik selepas siapnya pusat sumber baharu di Wisma IEM. Beliau seterusnya mencadangkan agar kemudahan tersebut ditawarkan kepada ahli terlebih dahulu sebelum dibuka kepada orang awam. Sebagai respons, Yang DiPertua memberi jaminan bahawa pengumuman akan dibuat setelah pengubahsuaian siap.

Ir. Ong Ching Loon (HF11938) mencadangkan supaya penyata kewangan IEM bagi tahun berakhir 31 Disember 2024 diterima pakai. Cadangan tersebut disokong oleh Ir. Mohd Radzi bin Salleh (F20112). MAT kemudiannya menerima pakai penyata kewangan tersebut.

7.0 **PENYATA KEWANGAN DANA PENDIDIKAN – 31 DISEMBER 2024**

Bendahari Kehormat kemudiannya meneruskan pembentangan mengenai penyata kewangan tabung pendidikan bagi tahun berakhir 31 Disember 2024 dari muka surat 235 hingga 242.

7.1 MAT dimaklumkan bahawa sumbangan yang diterima berjumlah RM25,447 pada tahun 2024 berbanding RM22,681 pada tahun 2023. MAT seterusnya dimaklumkan bahawa IJM telah menyumbangkan baki RM100,000 (jumlah keseluruhan sumbangan ialah RM200,000) kepada IEM. Walau bagaimanapun, jumlah keseluruhan pendapatan bagi tahun 2024 adalah RM185,489 berbanding RM169,264 pada tahun 2023.

7.2 Bendahari Kehormat kemudian melaporkan bahawa jumlah keseluruhan perbelanjaan bagi tahun 2024 adalah RM135,587 berbanding RM119,753 pada tahun 2023.

7.3 Bendahari Kehormat seterusnya memaklumkan bahawa terdapat lebihan sebanyak RM49,832 bagi prestasi keseluruhan Tabung Pendidikan pada tahun 2024 berbanding lebihan RM49,511 pada tahun 2023.

7.4 MAT selanjutnya dimaklumkan bahawa hasil yang dijana bagi tahun 2023 ialah RM169,264. Oleh yang demikian, 50% Spending Rule oleh Lembaga Hasil Dalam Negeri (LHDN) bagi Akaun Pengecualian Cukai perlu dibelanjakan pada tahun 2024, iaitu sebanyak RM84,632. Jumlah perbelanjaan yang ditanggung pada tahun 2024 ialah RM130,690. Oleh itu, bagi tahun 2024, dana pendidikan IEM telah mematuhi 50% Spending Rule oleh Lembaga Hasil Dalam Negeri (LHDN) bagi Akaun Pengecualian Cukai.

7.5 MAT turut diberi taklimat mengenai kedudukan kewangan keseluruhan tabung pendidikan. Deposit tetap, tunai dan tunai setara meningkat sebanyak 6% kepada RM2,251,168, manakala dana terkumpul meningkat sebanyak 1% berbanding 2023, menjadikan jumlahnya RM2,601,049.

7.6 **Sesi Soal Jawab**

7.6.1 YBhg. Dato' Ir. Prof. Dr. Norlida binti Buniyamin (F13746) menyebut mengenai ikrar RM1 juta oleh SEGi University untuk dana pendidikan serta dana bagi Orang Asli. Yang DiPertua menjelaskan bahawa perkara ini telah pun tersedia dan sedang diiklankan tetapi dalam terma umum.

Memandangkan tiada lagi soalan dibangkitkan, Ir. Wong Chee Fui (F20903) mencadangkan supaya penyata tabung pendidikan bagi tahun berakhir 31 Disember 2024 diterima pakai. Cadangan tersebut disokong oleh Ir. Sim Hui Kheng, Stephanie (F19167). MAT kemudiannya menerima pakai penyata tabung pendidikan tersebut.

8.0 **PERBINCANGAN MENGENAI ISU BERTULIS YANG DITERIMA DARIPADA AHLI**

MAT dimaklumkan bahawa terdapat dua (2) isu bertulis yang diterima daripada ahli:

8.1 Yang Dipertua memaklumkan MAT bahawa satu e-mel telah diterima pada 10 Mac 2025 daripada YBhg. Dato' Ir. Ng Sin Chie. Berdasarkan e-mel tersebut, beliau menyatakan kebimbangan serius mengenai Distinguished Engineer Award yang telah disampaikan pada MAT Cawangan Penang yang diadakan pada 8 Mac 2025.

YBhg. Dato' Ir. Ng Sin Chie seterusnya memaklumkan dalam e-melnya bahawa anugerah tersebut telah diwujudkan sejak 2008 atau 2009. Secara tradisinya, anugerah itu diumumkan dan disampaikan semasa Annual Dinner Cawangan oleh Yang DiPertua dengan kehadiran Pengerusi Cawangan. Oleh itu, beliau bertanya perkara-perkara berikut:

- (i) Adakah HQ mengetahui mengenai anugerah ini?
- (ii) Adakah ia telah diluluskan dan diperkenankan secara rasmi oleh HQ?
- (iii) Jika tidak, apakah langkah atau tindakan pembetulan yang perlu diambil oleh Cawangan untuk menangani perkara ini dengan sewajarnya?

Yang Dipertua kemudian bertanya sama ada YBhg. Dato' Ir. Ng Sin Chie berada dalam talian. Namun, memandangkan tiada respons, Yang Dipertua membacakan keseluruhan e-mel beliau.

Yang Dipertua memberi taklimat kepada MAT bahawa beliau hadir pada MAT Cawangan tersebut. MAT mengambil maklum bahawa Yang Dipertua telah diminta hadir untuk menjadi orang tengah/membantu dalam penilaian. Beliau memaklumkan bahawa semasa MAT Cawangan Penang, seorang ahli telah membentangkan satu resolusi untuk memansuhkan anugerah tersebut. Selain itu, MAT mengambil maklum bahawa tiada Distinguished Engineer Award dalam perlembagaan IEM. Seterusnya diambil maklum bahawa MAT Cawangan telah mengundi untuk memansuhkan anugerah tersebut.

Yang Dipertua kemudian menjawab tiga (3) soalan yang dibangkitkan seperti berikut:

- (i) HQ tidak mengetahui mengenai anugerah tersebut kerana tiada maklumat bertulis
- (ii) Oleh sebab tiada maklumat bertulis daripada Cawangan, maka HQ tidak dapat meluluskan anugerah tersebut
- (iii) Resolusi untuk memansuhkan telah dibuat sewajarnya semasa MAT Cawangan dan dibentangkan serta diundi, di mana majoriti ahli bersetuju untuk memansuhkan Distinguished Engineer Award

Yang Dipertua menegaskan bahawa perkara ini hendaklah selaras dengan perlembagaan IEM. Beliau kemudian membuka ruang kepada MAT untuk sebarang pertanyaan.

8.1.1 YBhg. Academician Tan Sri Dato' Seri Ir. Prof. Dr. Chuah Hean Teik (DHF09157) mengisytiharkan kepentingannya sebagai penerima Anugerah Keahlian Kehormat. Beliau kemudiannya membangkitkan dua perkara: pertama, beliau menyatakan bahawa Keahlian Kehormat ialah satu gred keahlian yang termaktub dalam perlembagaan IEM dan bukannya satu anugerah. Kedua, beliau memaklumkan MAT bahawa anugerah seperti ini lazimnya dianugerahkan oleh Excomm atau Majlis, manakala perlembagaan IEM hanya menyatakan kelas atau kategori keahlian.

Beliau seterusnya menyatakan bahawa adalah tidak sesuai bagi Cawangan membentangkan resolusi untuk memansuhkan Anugerah Keahlian Kehormat dalam MAT, kerana keputusan sedemikian sepatutnya dibuat dalam Special General Meeting. Pada pandangannya, ini tidak adil kepada ahli-ahli am Cawangan Penang kerana mereka mungkin tidak mengetahui mengenai usul untuk memansuhkan anugerah tersebut atau proses pengundian yang berkaitan.

- 8.1.2 YBhg. Dato' Paduka Ir. (Dr) Hj. Keizrul bin Abdullah (HF01691) mencadangkan supaya pihak Majlis meneliti isu sama ada Cawangan patut dibenarkan mempunyai anugerah mereka sendiri memandangkan anugerah tersebut adalah atas nama IEM.
- 8.1.3 Ir. Ong Ching Loon (HF11938) berpendapat bahawa Anugerah Keahlian Kehormat oleh Cawangan Penang patut diteruskan. Beliau berpendapat bahawa keputusan yang dibuat semasa MAT hendaklah dikekalkan. Sebagai alternatif, Cawangan boleh mengadakan Emergency General Meeting (EGM).
- 8.1.4 Ir. Cader Mohideen Mohamed Aboobucker (M13942) menyatakan bahawa anugerah tersebut pada asasnya bertujuan mengiktiraf sumbangan seorang jurutera kepada bidang kejuruteraan. Beliau menambah bahawa HQ seharusnya menyokong Cawangan kerana ia menghargai ahli atas sumbangan mereka.
- 8.1.5 Ir. Dr. Lee Choo Yoong (F29738), yang merupakan Pengerusi semasa Cawangan Penang, menjelaskan bahawa Anugerah Keahlian Kehormat tidak dianugerahkan dalam bentuk kewangan. Penganugerahan tersebut adalah terutamanya untuk mengiktiraf jurutera yang telah menyumbang kepada sektor kejuruteraan serta negeri Penang.
- 8.1.6 YBhg. Ir. Ting Chek Choon (F24754) mengulangi kenyataan Ir. Dr. Lee Choo Yoong bahawa idea utamanya adalah untuk mengiktiraf sumbangan seseorang terhadap pembangunan Penang. Beliau juga memaklumkan bahawa ia tidak bercanggah dengan perlembagaan IEM.
- 8.1.7 Ir. Mohd Radzi bin Salleh (F20112) berpendapat bahawa Cawangan patut memaklumkan HQ mengenai anugerah sedemikian.
- 8.1.8 YBhg. Academician Tan Sri Dato' Seri Ir. Prof. Dr. Chuah Hean Teik (DHF09157) turut mencadangkan supaya Cawangan mengadakan Mesyuarat Agung Khas.
- 8.1.9 Ir. Gopal Narian Kutty (F11291) berpendapat bahawa perlu ada Prosedur Operasi Standard (SOP) / garis panduan yang jelas untuk Cawangan mewujudkan anugerah mereka sendiri.

Yang Dipertua, setelah mempertimbangkan ulasan dan cadangan yang dibangkitkan oleh beberapa ahli, mencadangkan supaya Cawangan menyelesaikan perkara tersebut secara baik dengan mengadakan special general meeting bagi mendapatkan maklum balas daripada ahli am mereka. Beliau menekankan bahawa keputusan mengenai langkah seterusnya sepatutnya diserahkan kepada Cawangan.

8.2 **Isu Bertulis 2 - Inisiatif STEM Diterima daripada Ir. Sukhairul Nizam bin Abdul Razak melalui e-mel bertarikh 10 April 2025**

Yang Dipertua menjemput Ir. Sukhairul Nizam bin Abdul Razak (M48536) untuk membentangkan isu bertulis beliau kepada MAT. Ir. Sukhairul Nizam mengulas bahawa perlu ada usaha kolaboratif daripada IEM dan bukan hanya kumpulan tertentu sahaja dalam memulakan aktiviti STEM. Beliau seterusnya mengulas bahawa tumpuan seharusnya kurang diberikan kepada kebajikan pihak berkepentingan tetapi memfokus lebih mendalam kepada alumni pelajar.

Walaupun beliau berkhidmat sebagai Setiausaha bagi Engineering Education Technical Division (E2TD), beliau merasakan bahawa E2TD mungkin tidak dapat menyelesaikan sebahagian cabaran mendesak dalam sektor kejuruteraan Malaysia, khususnya dalam bidang pendidikan STEM, penciptaan pekerjaan, dan ganjaran jurutera.

Yang Dipertua mengucapkan terima kasih atas ulasan tersebut dan mencadangkan bahawa beliau akan mengadakan sesi dialog dengan E2TD bagi menangani isu ini supaya ia dapat diselesaikan dalam E2TD.

ADVANCING SUSTAINABILITY THROUGH ENGINEERING LEADERSHIP

Sustainability continues to be an increasingly important strategic priority for the Institution of Engineers, Malaysia (IEM), reflecting the growing expectations placed on the engineering profession to contribute meaningfully to sustainable development. As global industries accelerate their transition towards environmentally responsible and socially inclusive practices, engineers play a critical role in delivering innovative solutions that balance economic growth with environmental stewardship and social well-being. Recognising this responsibility, IEM has progressively integrated sustainability into our institutional priorities and long-term strategic planning, positioning IEM as a key advocate for sustainable engineering practices within Malaysia. A significant milestone in this journey was the launch of the IEM Guideline on Simplified ESG Disclosure for the Built Environment in 2024, which represents an important step in supporting engineering professionals and organisations in adopting Environmental, Social and Governance (ESG) practices. Developed to address the increasing demand for sustainability reporting and ESG transparency, the guideline provides a

practical and structured framework that simplifies ESG disclosure for engineers, particularly those operating within the built environment sector. By translating complex sustainability principles into actionable guidance, the framework enables engineering professionals to incorporate ESG considerations into project planning, design, construction, and operational management, while also aligning with emerging regulatory expectations and global sustainability trends.

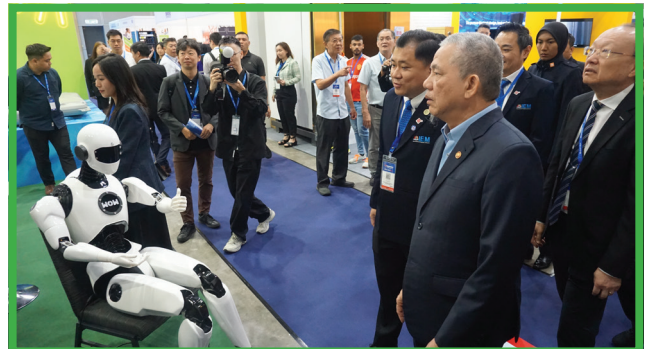

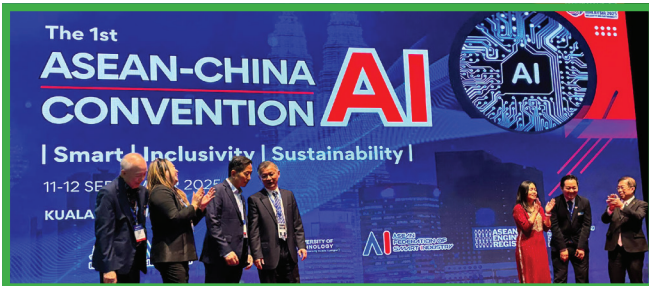

Engineers remain at the forefront of addressing some of the world's most pressing challenges, including climate change mitigation, resource efficiency, infrastructure resilience, and sustainable urban development. Through their technical expertise and problem-solving capabilities, engineers contribute significantly to the development of sustainable solutions that protect the environment while supporting economic progress and societal well-being. In this regard, IEM recognises our responsibility not only to represent the engineering profession but also to guide and empower engineers to integrate sustainability principles into their professional practices. To further advance these initiatives, IEM established the ESG Sub-Committee under the Standing Committee on Professional Practice, which serves as a dedicated platform to promote ESG awareness, professional development, and knowledge sharing within the engineering community. The sub-committee plays a key role in supporting the implementation of ESG-related initiatives and facilitating engagement between engineers, industry stakeholders, and policymakers on sustainability-related matters.

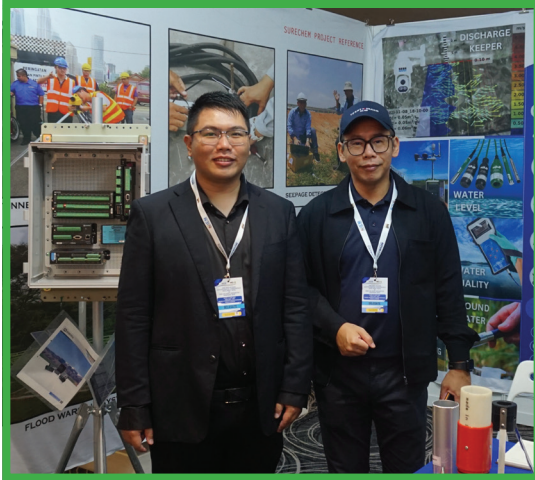

Throughout the year, the ESG Sub-Committee has organised a series of webinars and capacity-building workshops aimed at equipping engineers with a deeper understanding of ESG concepts, sustainability reporting frameworks, and responsible engineering practices. These programmes are designed to strengthen the profession's readiness to respond to evolving sustainability expectations, while also fostering greater awareness of the role engineers play in delivering sustainable and resilient infrastructure. In addition to supporting professional development, these initiatives also reflect IEM's broader commitment to promoting a culture of sustainability within the engineering ecosystem. By encouraging knowledge exchange and collaboration across industry, academia, and professional institutions, IEM aims to strengthen the capacity of engineers to contribute effectively to national and global sustainability agendas.

In line with our commitment to transparency, accountability, and responsible governance, IEM is proud to present our first Sustainability Report 2025, marking an important milestone in documenting the Institution's sustainability journey. The publication of this report demonstrates IEM's dedication to enhancing transparency in our governance and operations while reinforcing our role as a professional body that actively promotes responsible practices within the engineering community.

The Sustainability Report outlines IEM's key sustainability initiatives, governance structures, and engagement efforts undertaken to support the advancement of ESG principles within the engineering profession. It also reflects IEM commitment to continuous improvement in aligning our programmes and activities with broader sustainability goals. Looking ahead, IEM remains committed to strengthening our leadership in advancing sustainability across the engineering profession. Through continued collaboration, knowledge sharing, and professional capacity building, IEM aims to empower engineers to play an active role in shaping a more sustainable and resilient future. By championing ESG principles and responsible engineering practices, IEM will continue to support the profession in delivering innovative solutions that contribute to environmental protection, social progress, and long-term economic sustainability.

67th ANNUAL REPORT SESSION 2025/2026

Laporan Tahunan Ke-67 Sesi 2025/2026

1.0 INTRODUCTION

- 1.1 It is with great pleasure that IEM presents the 67th Annual Report for session 2025/2026 covering the period 1 April 2026 until 31 March 2026.

2.0 MEMBERSHIP

- 2.1 The Institution's membership profile over the period 2020 to 2026 reflects notable fluctuations, with an overall trend of stabilisation following earlier declines and subsequent recovery.

Total membership stood at 53,894 in 2020 before declining significantly to 47,087 in 2021 and further to 46,634 in 2022. This downward trend reversed in 2023, with membership increasing to 48,314, and continued growth was observed in 2024, reaching 51,322. However, in 2025, total membership decreased markedly to 42,326. As of 24 March 2026, membership has rebounded to 43,558, indicating early signs of recovery.

Across membership grades, the student category has consistently represented the largest proportion of members and has been the primary driver of overall fluctuations. Student membership peaked at 31,419 in 2020, declined sharply in 2021, and recovered progressively to 30,564 in 2024 before experiencing a substantial drop to 21,352 in 2025. This decline largely explains the overall reduction in total membership during that year.

Professional membership grades, including Members, Fellows, and Senior Members, have remained relatively stable with gradual growth. The number of Members increased from 10,950 in 2022 to 11,224 in 2025, while Fellows rose steadily from 772 in 2020 to 800 in 2025. Senior Members also showed consistent growth over the period, reflecting positive progression within the professional membership pipeline.

Newer membership categories, such as Engineering Technologist and Engineering Technician grades (introduced from 2022 onwards), have shown modest but encouraging uptake, indicating diversification of membership pathways.

In summary, while total membership has experienced variability over the past five years—largely influenced by fluctuations in Student membership—the Institution's core professional membership base has remained stable and continues to show gradual growth. The recovery observed in early 2026 suggests a positive outlook, if efforts to stabilise student enrolment and strengthen member retention are sustained.

As of 24 March 2026, the membership of the Institution stands at 43,558, reflecting an increase from 42,326 recorded on 1 March 2025. This represents a net growth of 1,232 members over the period, indicating a steady upward trend in membership.

The increase suggests continued interest in the Institution's activities and value proposition, as well as the effectiveness of ongoing membership recruitment and retention efforts. While detailed comparative figures for the preceding five years are referenced, they are not provided here; however, the current year-on-year growth aligns with the Institution's broader objective of sustained expansion.

Overall, the Institution's membership trajectory remains positive, demonstrating resilience and continued relevance within its professional community. Continued monitoring of membership trends and targeted engagement strategies will be essential to maintain and further enhance this growth momentum.

3.0 THE COUNCIL AND THE EXECUTIVE COMMITTEE

- 3.1 Five (5) Council meetings, one Extraordinary Council meeting and thirteen monthly Executive Committee (Excomm) meetings were held during the session to investigate the management of the properties and affairs of the Institution.
- 3.2 The Institution wish to thank all members of the Council, Executive Committee, Standing Committees, Branches, Technical Divisions, Special Interest Groups, Sections, Sub Committees, Ad Hoc Committees and other Committees for their participation, contribution and support in the activities of the institution in the furtherance of its objective to promote the science and profession of engineering in the spirit of a learned society.
- 3.3 The Institution also expresses a vote of thanks to the various members who may not have served on the above Committees but voluntarily served as IEM representatives to the various government bodies and organisations.

4.0 STANDING COMMITTEE ON FINANCE

- 4.1 The role of the Standing Committee chaired by the Deputy President, Ir. Yau Chau Fong is to conduct the financial management of the properties and affairs of the IEM. Regular meetings were held every 3rd Thursday of the month.

4.2 Main Sources of Income

4.2.1 Annual Subscription

IEM continue to depend largely on the collection of members' annual subscriptions to finance its operating expenditure. For the year 2025, income from annual subscriptions stood at approximately 55% of the total income compared to 55% in 2024, 54% in 2023, 61.1% in 2022, 64.1% in 2021, 65.8% in 2020, 70% in 2019, 65% in 2018, 51% in 2017 and 57% in 2016. Based on this trend, IEM's dependence on annual subscriptions collection is reducing. This is due to various efforts to diversify IEM's income.

IEM continue to depend largely on the collection of members' annual subscriptions to finance its operating expenditure. For the year 2025, income from annual subscriptions stood at approximately 55% of the total income compared to 55% in 2024, 54% in 2023, 61.1% in 2022, 64.1% in 2021, 65.8% in 2020, 70% in 2019, 65% in 2018, 51% in 2017 and 57% in 2016. Based on this trend, IEM's dependence on annual subscriptions collection is reducing. This is due to various efforts to diversify IEM's income.

In accordance with the Bylaws, reminders to members on their annual subscription payments were sent out by the Institution. As an incentive to members who pay their subscriptions early, IEM also conducts lucky draws for those who pay before 31 March 2025. A total of 100 smart watches were allocated for the lucky draw. For the year 2025, 87.7% of the members had settled their subscriptions by the end of the year. IEM wish to thank all members who had promptly settled their subscriptions.

As at the end of the financial year 2025, 2,487 members are in arrears of subscription for 2025 compared to 2,267 in 2024. The total outstanding collection for the year amounted to RM361,736 compared to RM335,748 in 2024

4.2.2 **Rental**

Wisma IEM continues to be rented out as a source of income. The tenancy for the first and second floors by Merdeka Strategic Development Centre Sdn Bhd was renewed in 2025 for an additional four years, with a fixed rental increase of 5% on the current monthly rental rate. A further renewal term will commence in 2029. Another tenant, IEM Training Academy Sdn Bhd, currently occupies space on the first floor until August 2026.

The ground floor of Bangunan Ingenieur continues to be leased to Pizza Hut at a monthly rental of RM15,995.30. The tenancy was renewed on 1 June 2025 for a period of two years, expiring on 31 May 2027. However, due to the ongoing challenges faced by Pizza Hut, Excomm accepted their appeal to maintain the existing rental rate. Both parties have agreed to a minimum three-month termination notice. Excomm also approved Pizza Hut's request to utilise the outdoor space without any rental charges until the end of their current tenancy. All necessary steps to obtain approval from the local authority (MBPJ) for this purpose will be undertaken by Pizza Hut.

4.2.3 **Activities Income**

Most of IEM's activities had reverted to physical since the start of 2023. Nevertheless, to benefit members outside of Klang Valley, some of the important or interesting courses/talks continue to be arranged either virtually or via hybrid mode.

For this purpose, the Secretariat manages all incoming invitations from external parties and refers them for consideration to the IEM President, assisted by the Chairman of the Professional Practice Committee (PPC), the IEM Honorary Secretary, and relevant Committee Chairmen. Based on these consultations, suitable IEM representatives are identified and appointed to attend external meetings and events. The PPC Secretariat subsequently handles the necessary administrative arrangements, including the issuance of formal letters of appointment to OBR representatives, clearly specifying their nominations and terms of appointment.

Currently, more than 100 IEM members, comprising representatives from the Excomm, Council, Standing Committees, Technical Divisions (TDs), Special Interest Groups (SIGs), Young Engineers Section (YES), and Branches, represent IEM in over 150 technical committees, working groups, ceremonies, dialogues, events, and meetings involving local authorities, government agencies, institutions, and universities.

All appointed representatives are required to submit an Outside Bodies Representation (OBR) report within one week following each meeting. These reports are tabled at the monthly meetings of the Standing Committee on Professional Practice and relevant Technical Divisions. Matters requiring further deliberation or decision are subsequently escalated to the President or Excomm, where appropriate.

In addition, IEM continues to contribute professional input and technical feedback to various industry stakeholders and authorities, including the Department of Standards Malaysia (DSM), the Fire and Rescue Department of Malaysia (Bomba), SIRIM, and the Public Works Department (JKR), through active participation in committees, dialogues, workshops, and consultation sessions.

The primary objective of this Sub-Committee is to monitor the progress of Malaysian Standards (MS) drafting, with particular emphasis on forensic engineering matters relevant to IEM.

As IEM is represented in almost all Malaysian Standards (MS) drafting committees, it is important to ensure that IEM's views are effectively conveyed to the respective standards drafting committees. Accordingly, close monitoring is required to ensure that all engineering-related standards are appropriately developed.

The forensic engineering aspect has become increasingly important due to the rising number of engineering failures reported nationwide. Consequently, PPC established this Sub-Committee to formalise forensic investigation procedures, ensure that investigations are conducted properly, and provide structured training to engineers undertaking forensic engineering work.

9.10.2 **Composition of Committee**

This Sub Committee will be divided into four (4) sections, i.e. Civil and Structural, Electrical, Mechanical and Chemical. Each section will be headed by a senior engineer.

The publication of this guideline marked a significant milestone in IEM's commitment to advancing sustainability, responsible engineering practices, and alignment with national and international ESG expectations within the built environment sector. In support of this initiative, the ESG Sub-Committee was formed with the primary objective of raising awareness, enhancing understanding, and promoting the practical adoption of Environmental, Social, and Governance (ESG) principles among IEM members. The Sub-Committee serves as a dedicated platform to translate ESG concepts into actionable engineering practices that are relevant to professional engineers, consulting firms, contractors, developers, and stakeholders across the built environment value chain.

Comprising committee members drawn from various IEM branches and technical divisions, the Sub-Committee brings together multidisciplinary expertise and regional representation to ensure broad outreach and practical relevance. This diverse composition enables the Sub-Committee to address ESG challenges across different engineering disciplines while reflecting local industry contexts and regulatory environments. To extend the impact of the guideline beyond publication, the Sub-Committee actively plans and organises knowledge-sharing initiatives, including webinars, workshops, technical talks, and continuing professional development (CPD) programmes. These initiatives are intended to equip IEM members with practical guidance on ESG integration, reporting expectations, and emerging sustainability standards, while fostering dialogue on best practices and lessons learned. Through these efforts, the ESG Sub-Committee supports IEM's broader strategic agenda to strengthen professional leadership in sustainability, enhance industry readiness for ESG-driven regulatory and market demands, and position engineers as key enablers of Malaysia's sustainable development and climate transition agenda.

It is one of the more advanced technologies in modern construction, changing how projects are designed, managed, and executed. With the government's push for wider BIM adoption, C&S engineers must adapt to utilise its potential. The talk started with BIM implementation trends in local projects, supported by statistical insights from JKR. It then delves into core BIM concepts, including AI integration, the Level of Development (LOD) framework, and the evolution of BIM technologies. One of the focuses of the talk is on the challenges encountered in BIM adoption, such as software costs, the high learning curve, interoperability issues, and localisation challenges. The discussion then shifts to localised engineering solutions, offering AI-enhanced BIM applications for Structural Engineering (Reinforced Concrete & Steel), MSMA & Drainage Management and Infrastructure Development (Roads, Highways, Sewerage, Water Retention, Earthworks). Key Highlights

- Student Section Presentations
- Student Sections collectively highlighted recurring challenges across institutions, particularly in securing funding, industry engagement, and inter-section collaboration.

Key themes included:

- High operational costs and difficulty securing sponsorships for large-scale events.
- Limited industry connections affecting technical talks, industrial visits, and CSR initiatives.
- Low visibility and perceived value of IEM Student Membership, impacting sign-up rates.

- Strong interest in outbound programs, cross-university collaboration, and shared flagship initiatives despite resource constraints.
- Overall, the presentations reflected a shared need for stronger financial support, structured industry linkages, and coordinated collaboration to enhance impact and sustainability.

Feedback from IEM

- IEM leadership commended the JQM initiative and emphasized:
- Earlier scheduling of JQM sessions for better planning alignment.
- Clearer articulation of industry and funding needs from Student Sections.
- More proactive engagement with Standing Committees, particularly Welfare and Activities.
- Underutilised funding, internship networks, and membership subsidies that require better awareness and outreach.

Help Needed

Student Sections identified six critical support areas:

- **Funding and Sponsorship:** Faster, clearer funding processes and access to centralised sponsorship pipelines.
- **Event Execution Support:** Operational guidance, training, and manpower support for large-scale events.
- **Inter-Section Collaboration:** Structured platforms, shared calendars, and collaboration funds.
- **Industry Engagement:** Centralised industry partner directories, speaker pools, and standardised SoPs for site visits.
- **Membership Value and Branding:** Enhanced student membership benefits, mentorship programs, and stronger success-story promotion.
- **Committee Continuity:** Leadership training, standardised handover processes, and succession planning to prevent performance drop-offs.

Finally, IEM-YES organised its flagship event, IEM x Sunway YES Open Day 3.0, in collaboration with the IEM Sunway University Student Section. The key highlights of the event included a career fair, career development workshops, and engaging forums aimed at connecting students and young engineers with industry opportunities.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF THE INSTITUTION OF ENGINEERS, MALAYSIA

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of The Institution Of Engineers, Malaysia, which comprise the statement of financial position as at 31 December 2025 of the Group and of the Institution, and the statement of income and expenditure, statement of changes in capital and reserve and statement of cash flows of the Group and of the Institution for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 208 to 237.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and of the Institution as at 31 December 2025, and of its financial performance and its cash flows for the financial year then ended in accordance with Malaysian Private Entities Reporting Standard and the constitution and by-laws of the Institution.

Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Other Ethical Responsibilities

We are independent of the Group and of the Institution in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ('IESBA Code'), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Responsibilities of the Council for the Financial Statements

The council of the Institution is responsible for the preparation of financial statements of the Group and of the Institution that give a true and fair view in accordance with Malaysian Private Entities Reporting Standard and the constitution and by-laws of the Institution. The council is also responsible for such internal control as the council determine is necessary to enable the preparation of financial statements of the Group and of the Institution that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Institution, the council is responsible for assessing the Group's and the Institution's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the council members either intend to liquidate the Group and the Institution or to cease operations, or has no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Institution as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Group and of the Institution, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and of the Institution's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the council members.

- Conclude on the appropriateness of the council's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and the Institution's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Institution or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group and the Institution to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Institution, including the disclosures, and whether the financial statements of the Group and of the Institution represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the council regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Other Matters

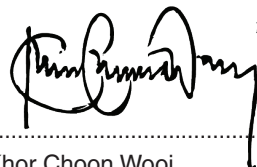

This report is made solely to the council, in accordance with Section 26 of the Societies Act, 1966 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

Investments in subsidiaries are stated at cost less impairment losses.

All inter-company transactions, balances and resulting unrealised gains are eliminated; unrealised losses are also eliminated unless cost cannot be recovered. Where necessary, adjustments are made to the financial statements of subsidiaries to ensure consistency of accounting policies with those of the Group.

The financial statements of the parent and its subsidiaries are all drawn up to the same reporting date.

Subsidiaries are consolidated using the acquisition method of accounting from the date control is transferred to the Group and are no longer consolidated from the date control ceases. The results of the subsidiary companies acquired during the financial year are included in the consolidated financial statements from the date of their acquisition.

Minority interests in the consolidated balance sheets consist of the minorities' share of fair values of the identifiable assets and liabilities of the acquiree as at the date of acquisition and the minorities' share of movements in the acquiree's equity. Losses applicable to the minority in excess of the minority interest in the subsidiary's equity are allocated against the interest of the Group except to the extent that the minority has a binding obligation and is able to make good the losses.

2.2 INVESTMENTS IN SUBSIDIARIES

Investments in subsidiaries are stated at cost in the balance sheet of the Institution, and are reviewed for impairment at the end of the reporting period if events or changes in circumstances indicate that the carrying values may not be recoverable.

On the disposal of the investments in subsidiary, the difference between the net disposal proceeds and the carrying amount of the investments is recognised in profit or loss.

2.3 GOODWILL

Goodwill represents the excess of the fair value of purchase consideration of subsidiaries acquired over the Institution's share of the fair values of their identifiable assets and liabilities at the date of acquisition. The carrying amount of goodwill is written down for impairment if the recoverable amount is less than its carrying value.

2.4 PROPERTY, PLANT AND EQUIPMENT

The cost of an item of property, plant and equipment is recognised as an asset when it is probable that future economic benefits associated with the item will flow to the Group and to the Institution and the cost of the item can be measured reliably. After recognition as an asset, an item of, property, plant and equipment are measured at cost less any accumulated depreciation and any accumulated impairment losses.

After recognition as an asset, freehold land and buildings are carried at their revalued amount, being their fair value at the date of the revaluation, less any subsequent accumulated depreciation and subsequent accumulated impairment losses. Revaluations are made with sufficient regularity to ensure that carrying amounts do not differ materially from that which would be determined using fair value at the end of the reporting period.

A revaluation increase arising from a revaluation is recognised in other comprehensive income and accumulated in equity under the heading of property revaluation surplus, except when the increase is recognised in the profit or loss to the extent that it reverses a revaluation decrease of the same asset previously recognised in profit or loss. A revaluation decrease arising from a revaluation is recognised in profit or loss, except when the decrease is recognised in other comprehensive income to the extent of any credit balance existing in the property revaluation surplus in respect of that asset. The decrease recognised in other comprehensive income reduces the amount accumulated in equity under the heading of property revaluation surplus.

Except for freehold land which is not depreciated.

Depreciation is provided on a straight-line method so as to write off the depreciable amount of the following assets over their estimated useful lives, as follows:

	<u>Rate</u>
Leasehold land and buildings	2%
Furniture and fittings	5% - 10%
Office equipment	10% - 20%
Library software	10%
Building renovation	5% - 20%
Lift	10%

Depreciation of an asset begins when it is ready for its intended use.

If there is an indication of a significant change in factors affecting the residual value, useful life or asset consumption pattern since the last annual reporting date, the residual values, depreciation method and useful lives of depreciable assets are reviewed, and adjusted prospectively.

The carrying amounts of items of plant and equipment are derecognised on disposal or when no future economic benefits are expected from their use or disposal. Any gain or loss arising from the derecognition of items of plant and equipment, determined as the difference between the net disposal proceeds, if any, and the carrying amounts of the item, is recognised in profit or loss. Neither the sale proceeds nor any gain on disposal is classified as revenue.

2.5 IMPAIRMENT OF ASSETS, OTHER THAN INVENTORIES AND FINANCIAL ASSETS

At each reporting date, the Group and the Institution assess whether there is any indication that an asset may be impaired. If any such indication exists, the recoverable amount of the asset is estimated.

When there is an indication that an asset may be impaired but it is not possible to estimate the recoverable amount of the individual asset, the Group and the Institution estimate the recoverable amount of the cash-generating unit to which the asset belongs.

The recoverable amount of an asset and a cash-generating unit is the higher of the fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset or a cash-generating unit is less than the carrying amount, an impairment loss is recognised to reduce the carrying amount to its recoverable amount. An impairment loss for a cash-generating unit is firstly allocated to reduce the carrying amount of any goodwill allocated to the cash-generating unit, and then, to the other non-current assets of the unit pro rata on the basis of the carrying amount of each appropriate asset in the cash-generating unit. Impairment loss is recognised immediately in profit or loss, unless the asset is carried at a revalued amount, in which case it is treated as a revaluation decrease.

The recoverable amount is the higher of an asset's or cash-generating unit's fair value less to sell, value in use and zero.

An impairment loss recognised in prior periods for an asset or the appropriate assets of a cash-generating unit is reversed when there has been a change in the estimates used to determine the asset's recoverable amount. An impairment loss is reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognised in prior periods. A reversal of an impairment loss is recognised immediately in profit or loss, unless the asset is carried at revalued amount, in which case it is treated as a revaluation increase.

2.6 FINANCIAL ASSETS

Financial assets are recognised in the statement of financial position when the Group and the Institution become a party to the contractual provisions of the instrument.

On initial recognition, financial assets are measured at transaction price, include transaction costs for financial assets not measured at fair value through profit or loss, unless the arrangement constitutes, in effect, a financing transaction for the counterparty to the arrangement.

After initial recognition, financial assets are classified into one of three categories: financial assets measured at fair value through profit or loss, financial assets that are debt instruments measured at amortised cost, and financial assets that are equity instruments measured at cost less impairment.

i) ***Financial Assets Measured at Fair Value Through Profit or Loss***

Financial assets are classified as at fair value through profit or loss when the financial assets are within the scope of Section 12 of the MPERS or if the financial assets are publicly traded or their fair value can otherwise be measured reliably without undue cost or effort.

Changes in fair value are recognised in profit or loss.

If a reliable measure of fair value is no longer available for an equity instrument that is not publicly traded but is measured at fair value through profit or loss, its fair value at the last date that instrument was reliably measurable is treated as the cost of the instrument, and it is measured at this cost amount less impairment until a reliable measure of fair value becomes available.

ii) ***Financial Assets that are Debt Instruments Measured at Amortised Cost***

After initial recognition, debt instruments are measured at amortised cost using the effective interest method. Debt instruments that are classified as current assets are measured at the undiscounted amount of the cash or other consideration expected to be received.

Effective interest method is a method of calculating the amortised cost of financial assets and of allocating the interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimate future cash receipts through the expected life of the financial assets or, when appropriate, a shorter period, to the carrying amount of the financial assets.

iii) ***Financial Assets that are Equity Instruments Measured at Cost Less Impairment***

Equity instruments that are not publicly traded and whose fair value cannot otherwise be measured reliably without undue cost or effort, and contracts linked to such instruments that, if exercised, will result in delivery of such instruments, are measured at cost less impairment.

iv) ***Impairment of Financial Assets***

At the end of each reporting period, the Group and the Institution assess whether there is any objective evidence that financial assets that are measured at cost or amortised cost, are impaired.

Objective evidence could include:

- significant financial difficulty of the issuer; or
- a breach of contract; or
- the lender granting to the borrower a concession that the lender would not otherwise consider; or
- it becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- observable data indicating that there is a measurable decrease in the estimated future cash flows from the financial assets since the initial recognition of those assets.

For certain category of financial assets, such as trade receivables, if it is determined that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, the assets are included in a group with similar credit risk characteristics and collectively assessed for impairment.

Impairment losses, in respect of financial assets measured at amortised cost, are measured as the differences between the assets' carrying amounts and the present values of their estimated cash flows discounted at the assets' original effective interest rate.

If there is objective evidence that impairment losses have been incurred on financial assets measured at cost less impairment, the amount of impairment losses are measured as the difference between the asset's carrying amount and the best estimate of the amount that the Group and the Institution would receive for the asset if it were to be sold at the reporting date.

The carrying amounts of the financial assets are reduced directly, except for the carrying amounts of trade receivables which are reduced through the use of an allowance account. Any impairment loss is recognised in profit or loss immediately. If, in subsequent period, the amount of an impairment loss decreases, the previously recognised impairment losses are reversed directly, except for the amounts related to trade receivables which are reversed to write back the amount previously provided in the allowance account. The reversal is recognised in profit or loss immediately.

v) ***Derecognition of Financial Assets***

Financial assets are derecognised when the contractual rights to the cash flows from the financial assets expire, or are settled, or the Group and the Institution transfer to another party substantially all of the risks and rewards of ownership of the financial assets.

On derecognition of financial assets in their entirety, the differences between the carrying amounts and the sum of the consideration received and any cumulative gains or losses are recognised in profit or loss in the period of the transfer.

2.7 SUBSCRIPTION IN ARREARS

Subscription in arrears of one year and more and where, in the opinion of the Council, are no longer recoverable from its members are written off to the statements of income and expenditure.

2.8 CASH AND CASH EQUIVALENTS

Cash and cash equivalents in the statement of cash flows comprise cash and bank balances, short-term bank deposits and other short-term, highly liquid investments that have a short maturity of three months or less from the date of acquisition, net of bank overdrafts.

2.9 CAPITAL RESERVE FUND

Fund raised from members for the purchase of property, plant and equipment are capitalised as Capital Reserve Fund.

2.10 LIBRARY FUND (RESOURCE CENTRE)

Enrolment fee received from corporate members for library membership of the Institution and donation received from members or non-members for capital expenditure of the library are capitalised as Library Fund.

2.11 BUILDING FUND

Funds and donations received from members for the purchase of Wisma IEM are capitalised in Building Fund. A separate bank account has been kept for the fund.

2.12 STEM FUND

STEM stands for Science, Technology, Engineering and Mathematics. It is a fund collected from members for student.

2.13 LIABILITIES AND EQUITY

i) *Classification of Liabilities and Equity*

Financial liabilities and equity instruments are classified in accordance with the substance of the contractual arrangement, not merely its legal form, and in accordance with the definitions of a financial liability and an equity instrument.

2.14 PROVISIONS

A provision is recognised when the Group and the Institution has an obligation at the reporting date as a result of a past event, it is probable that a transfer of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The risks and uncertainties are taken into account in reaching the best estimate of a provision. When the effect of the time value of money is material, the amount recognised in respect of the provision is the present value of the expenditure expected to be required to settle the obligation.

2.15 LEASES

Operating Leases

A lease is classified as an operating lease if it does not transfer substantially all the risks and rewards incidental to ownership. Lease payments under operating leases are recognised as an expense on a straight-line basis over the lease term.

2.16 FINANCIAL LIABILITIES

Financial liabilities are recognised in the statement of financial position when the Group and the Institution becomes a party to the contractual provisions of the instrument.

On initial recognition, financial liabilities are measured at transaction price, include transaction costs for financial liabilities not measured at fair value through profit or loss, unless the arrangement constitutes, in effect, a financing transaction for the Group and the Institution to the arrangement.

After initial recognition, financial liabilities are classified into one of three categories: financial liabilities measured at fair value through profit or loss, financial liabilities measured at amortised cost, or loan commitments measured at cost less impairment.

i) *Financial Liabilities Measured at Fair Value Through Profit or Loss*

Financial liabilities are classified as at fair value through profit or loss when the financial liabilities are within the scope of Section 12 of the MPERS or if the financial liabilities are publicly traded or their fair value can otherwise be measured reliably without undue cost or effort.

If a reliable measure of fair value is no longer available for an equity instrument that is not publicly traded but is measured at fair value through profit or loss, its fair value at the last date that instrument was reliably measurable is treated as the cost of the instrument, and it is measured at this cost amount less impairment until a reliable measure of fair value becomes available.

ii) *Financial Liabilities Measured at Amortised Cost*

After initial recognition, financial liabilities other than financial liabilities at fair value through profit or loss are measured at amortised cost using the effective interest method. Gains or losses are recognised in profit or loss when the financial liabilities are derecognised or impaired.

Effective interest method is a method of calculating the amortised cost of financial liabilities and of allocating the interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimate future cash payments through the expected life of the financial liabilities or, when appropriate, a shorter period, to the carrying amount of the financial liabilities.

iii) ***Loan Commitments Measured at Cost Less Impairment***

Commitments to receive loan that meet the conditions of Section 11 of the MPERS are measured at cost less impairment.

iv) ***Derecognition of Financial Liabilities***

Financial liabilities are derecognised when the obligation specified in the contract is discharged, cancelled or expires.

Any difference between the carrying amounts of the financial liabilities derecognised and the consideration paid is recognised in profit or loss.

2.17 REVENUE

i) ***Member's Subscription Fee***

Member's subscription fee is payable annually at the beginning of the financial year. Only that subscription which is attributable to the current financial year is recognised as income. Subscription relating to periods beyond the current financial year is taken up in the statements of financial position as subscription in advance under current liabilities. Subscription is payable in full irrespective of the date of resignation of members during the financial year.

ii) ***Advertisement in Bulletin / Journal***

Advertisement income receivable for the placement of advertisement in bulletin / journal published by the Institution is recognised when the right to receive payment is established.

iii) ***Rental Income***

Rental income is recognised when the right to receive payment is established.

iv) ***Credit Cards Commission***

Credit cards commission from the banks are recognised when the right to receive payment is established.

v) ***Interest Income***

Interest income is recognised on accruals basis using the effective interest methods.

vi) ***Dividend Income***

Dividend income is recognised when the right to received payments is established.

2.18 EMPLOYMENT BENEFITS

i) ***Short-Term Employment Benefits***

Short-term employment benefits, such as wages, salaries and other benefits, are recognised at the undiscounted amount as a liability and an expense when the employees have rendered services to the Group and the Institution.

The expected cost of accumulating compensated absences are recognised when the employees render services that increase their entitlement to future compensated absences. The expected cost of non-accumulating compensated absences, such as sick and medical leaves, are recognised when the absences occur.

The expected cost of accumulating compensated absences are measured at the undiscounted additional amount expected to be paid as a result of the unused entitlement that has accumulated at the end of the reporting period.

The expected cost of profit-sharing and bonus payments are recognised when the Group and the Institution has a present legal or constructive obligation to make such payments as a result of past events and a reliable estimate of the obligation can be made. A present obligation exists when the Group and the Institution has no realistic alternative but to make the payments.

ii) **Defined Contribution Plan**

Contributions payable to the defined contribution plan are recognised as a liability and an expense when the employees have rendered services to the Group and the Institution.

2.19 INCOME TAX

Tax expense is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised in other comprehensive income.

Tax payable on taxable profit for current and past periods is recognised as a current tax liability to the extent unpaid. If the amount paid in respect of the current and past periods exceeds the amount payable for those periods, the excess is recognised as a current tax asset.

Current tax assets and liabilities are measured at the amounts expected to be paid or recovered, using the tax rates and laws that have been enacted or substantially enacted by the reporting date.

Current tax liabilities and assets are offset if, and only if the Group and the Institution has a legally enforceable right to set off the amounts and plan either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax is provided in full on temporary differences which are the differences between the carrying amounts in the financial statements and the corresponding tax base of an asset or liability at the end of the reporting period.

Deferred tax liabilities are recognised for all taxable temporary differences that are expected to increase taxable profit in the future. Deferred tax assets are recognised for all deductible temporary differences that are expected to reduce taxable profit in the future and the carry forward of unused tax losses and unused tax credits.

Deferred tax liabilities and assets are not recognised in respect of the temporary differences associated with the initial recognition of an asset or a liability in a transaction that is not a business combination and at the time of the transactions, affects neither accounting profit nor taxable profit. Deferred tax liabilities are also not recognised for temporary difference associated with the initial recognition of goodwill.

Deferred tax liabilities and assets reflect the tax consequences that would follow from the manner in which the Group and the Institution expects to recover or settle the carrying amounts of their assets and liabilities and are measured at the tax rates and laws that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantially enacted by the reporting date.

3. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

3.1 CRITICAL JUDGEMENTS IN APPLYING THE ACCOUNTING POLICIES

The judgements, apart from those involving estimations described below, that management has made in the process of applying the accounting policies and that have the most significant effect on the amounts recognised in the financial statements, other than those disclosed in the Notes, are as follows:

i) **Contingent Rental**

The Group and the Institution has entered into tenancy agreements for the lease of land and staff housing, which contain contingent rental features based on predetermined revenue thresholds. The Group and Institution has determined that these contingent rental features are not embedded derivatives to be separately accounted for due to the economic characteristics and risks of these contingent rental features are closely related to the economic characteristics and risks of the underlying tenancy agreements. There are no leverage features contained within these contingent rental features.

3.2 KEY SOURCES OF ESTIMATION UNCERTAINTY

The key assumptions concerning the future, and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next year, other than those disclosed in the Notes, are as follows:

i) Depreciation of Property, Plant and Equipment

The estimates for the residual values, useful lives and related depreciation charges for the property, plant and equipment are based on commercial factors which could change significantly as a result of technical innovations and competitors' actions in response to the market conditions. The Group and the Institution anticipates that the residual values of its property, plant and equipment will be insignificant. As a result, residual values are not being taken into consideration for the computation of the depreciable amount. Changes in the expected level of usage and technological development could impact the economic useful lives and the residual values of these assets, therefore future depreciation charges could be revised.

ii) Impairment of Goodwill on Consolidation

The Group determines whether goodwill on consolidation is impaired at least on an annual basis. This requires an estimation of the value-in-use of the subsidiaries to which goodwill is allocated. Estimating a value-in-use amount requires management to make an estimate of the expected future cash flows from the subsidiaries and also to choose a suitable discount rate in order to calculate the present value of those cash flows.

The calculation of the value-in-use amount is most sensitive to the following assumptions:

- (a) Budgeted gross margin. Gross margins are based on historical averages achieved in the preceding three (3) financial years, adjusted to reflect anticipated efficiency and productivity improvements.
- (b) Growth rates. The forecasted growth rates are based on published industry data and do not exceed the sustainable long-term average growth rate for the relevant industries.
- (c) Pre-tax discount rates. The discount rates reflect current market assessment of specific risks of the subsidiaries. These discount rates have consistently been used by management as the benchmark rates in project appraisals of the subsidiaries.

iii) Income Taxes

There are certain transactions and computations for which the ultimate tax determination may be different from the initial estimate. The Group and the Institution recognises tax liabilities based on its understanding of the prevailing tax laws and estimates of whether such taxes will be due in the ordinary course of business. Where the final outcome of these matters is different from the amounts that were initially recognised, such difference will impact the income tax expense and deferred tax balances in the year in which such determination is made.

iv) Impairment of Receivables

An impairment loss is recognised when there is objective evidence that a financial asset is impaired. Management specifically reviews its loans and receivables financial assets and analyses historical bad debts, customer concentrations, customer creditworthiness, current economic trends and changes in the customer payment terms when making a judgement to evaluate the adequacy of the allowance for impairment losses. Where there is objective evidence of impairment, the amount and timing of future cash flows are estimated based on historical loss experience for assets with similar credit risk characteristics. If the expectation is different from the estimation, such difference will impact the carrying value of receivables.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF THE EDUCATION FUND OF THE INSTITUTION OF ENGINEERS, MALAYSIA

Opinion

We have audited the financial statements of The Education Fund of The Institution of Engineers, Malaysia, which comprise the statement of financial position as at 31 December 2025 of the Institution, and the statement of income and expenditure, statement of changes in accumulated fund and statement of cash flows of the Institution for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 239 to 247.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Institution as at 31 December 2025, and of its financial performance and its cash flows for the financial year then ended in accordance with Malaysian Private Entities Reporting Standard and the constitution and by-laws of the institution.

Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Other Ethical Responsibilities

We are independent of the Institution in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ('IESBA Code'), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Responsibilities of the Council for the Financial Statements

The council of the Institution is responsible for the preparation of financial statements of the Institution that give a true and fair view in accordance with Malaysian Private Entities Reporting Standard and the constitution and by-laws of the institution. The council is also responsible for such internal control as the council determine is necessary to enable the preparation of financial statements of the Institution that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Institution, the council is responsible for assessing the Institution's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the council members either intend to liquidate the Institution or to cease operations, or has no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Institution as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Institution, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Institution's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the council members.

- Conclude on the appropriateness of the council's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Institution's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Institution or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Institution to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Institution, including the disclosures, and whether the financial statements of the Institution represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the council regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE FINANCIAL YEAR ENDED 31 DECEMBER 2025**

1. GENERAL INFORMATION

The Institution is a registered institution registered under the Societies Act, 1966 and domiciled in Malaysia.

The principal office is situated at Bangunan Ingenieur, Lots 60 & 62, Jalan 52/4, Peti Surat 223, Jalan Sultan, 46720 Petaling Jaya, Selangor Darul Ehsan.

The Education Fund of the Institution of Engineers, Malaysia is principally to contribute towards further progress and advancement of all disciplines of the engineering profession by the provision of scholarships and educational loans and also the provision of grants for seminars, conferences, research and other related engineering education activities. There have been no significant changes in the nature of these principal activities of the Institution during the financial year.

The financial statements of the Institution are presented in the functional currency, which is the currency of the primary economic environment in which the entity operates. The functional currency of the Institution is Ringgit Malaysia as the sales and purchases are mainly denominated in Ringgit Malaysia and receipts from operations are usually retained in Ringgit Malaysia and funds from financing activities are generated in Ringgit Malaysia.

2. SIGNIFICANT ACCOUNTING POLICIES

The financial statements have been prepared on the historical cost basis unless otherwise stated.

The principal accounting policies adopted are set out below:

2.1 IMPAIRMENT OF ASSETS, OTHER THAN INVENTORIES AND FINANCIAL ASSETS

At each reporting date, the Institution assesses whether there is any indication that an asset may be impaired. If any such indication exists, the recoverable amount of the asset is estimated.

When there is an indication that an asset may be impaired but it is not possible to estimate the recoverable amount of the individual asset, the Institution estimates the recoverable amount of the cash-generating unit to which the asset belongs.

The recoverable amount of an asset and a cash-generating unit is the higher of the fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset or a cash-generating unit is less than the carrying amount, an impairment loss is recognised to reduce the carrying amount to its recoverable amount. An impairment loss for a cash-generating unit is firstly allocated to reduce the carrying amount of any goodwill allocated to the cash-generating unit, and then, to the other non-current assets of the unit pro rata on the basis of the carrying amount of each appropriate asset in the cash-generating unit. Impairment loss is recognised immediately in profit or loss, unless the asset is carried at a revalued amount, in which case it is treated as a revaluation decrease.

The recoverable amount is the higher of an asset's or cash-generating unit's fair value less to sell, value in use and zero.

An impairment loss recognised in prior periods for an asset or the appropriate assets of a cash-generating unit is reversed when there has been a change in the estimates used to determine the asset's recoverable amount. An impairment loss is reversed to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation, if no impairment loss had been recognised in prior periods. A reversal of an impairment loss is recognised immediately in profit or loss, unless the asset is carried at revalued amount, in which case it is treated as a revaluation increase.

2.2 FINANCIAL ASSETS

Financial assets are recognised in the statement of financial position when the Institution becomes a party to the contractual provisions of the instrument.

On initial recognition, financial assets are measured at transaction price, include transaction costs for financial assets not measured at fair value through profit or loss, unless the arrangement constitutes, in effect, a financing transaction for the counterparty to the arrangement.

After initial recognition, financial assets are classified into one of three categories: financial assets measured at fair value through profit or loss, financial assets that are debt instruments measured at amortised cost, and financial assets that are equity instruments measured at cost less impairment.

i) Financial Assets Measured At Fair Value Through Profit Or Loss

Financial assets are classified as at fair value through profit or loss when the financial assets are within the scope of Section 12 of the MPERS or if the financial assets are publicly traded or their fair value can otherwise be measured reliably without undue cost or effort.

Changes in fair value are recognised in profit or loss.

If a reliable measure of fair value is no longer available for an equity instrument that is not publicly traded but is measured at fair value through profit or loss, its fair value at the last date that instrument was reliably measurable is treated as the cost of the instrument, and it is measured at this cost amount less impairment until a reliable measure of fair value becomes available.

ii) Financial Assets That Are Debt Instruments Measured At Amortised Cost

After initial recognition, debt instruments are measured at amortised cost using the effective interest method. Debt instruments that are classified as current assets are measured at the undiscounted amount of the cash or other consideration expected to be received.

Effective interest method is a method of calculating the amortised cost of financial assets and of allocating the interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimate future cash receipts through the expected life of the financial assets or, when appropriate, a shorter period, to the carrying amount of the financial assets.

iii) Financial Assets That Are Equity Instruments Measured At Cost Less Impairment

Equity instruments that are not publicly traded and whose fair value cannot otherwise be measured reliably without undue cost or effort, and contracts linked to such instruments that, if exercised, will result in delivery of such instruments, are measured at cost less impairment.

iv) Impairment Of Financial Assets

At the end of each reporting period, the Group and the Institution assess whether there is any objective evidence that financial assets that are measured at cost or amortised cost, are impaired.

Objective evidence could include:

- significant financial difficulty of the issuer; or
- a breach of contract; or
- the lender granting to the borrower a concession that the lender would not otherwise consider; or
- it becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- observable data indicating that there is a measurable decrease in the estimated future cash flows from the financial assets since the initial recognition of those assets.

For certain category of financial assets, such as trade receivables, if it is determined that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, the assets are included in a group with similar credit risk characteristics and collectively assessed for impairment.

Impairment losses, in respect of financial assets measured at amortised cost, are measured as the differences between the assets' carrying amounts and the present values of their estimated cash flows discounted at the assets' original effective interest rate.

If there is objective evidence that impairment losses have been incurred on financial assets measured at cost less impairment, the amount of impairment losses are measured as the difference between the asset's carrying amount and the best estimate of the amount that the Group and the Institution would receive for the asset if it were to be sold at the reporting date.

The carrying amounts of the financial assets are reduced directly, except for the carrying amounts of trade receivables which are reduced through the use of an allowance account. Any impairment loss is recognised in profit or loss immediately. If, in subsequent period, the amount of an impairment loss decreases, the previously recognised impairment losses are reversed directly, except for the amounts related to trade receivables which are reversed to write back the amount previously provided in the allowance account. The reversal is recognised in profit or loss immediately.

v) *Derecognition Of Financial Assets*

Financial assets are derecognised when the contractual rights to the cash flows from the financial assets expire, or are settled, or the Group and the Institution transfer to another party substantially all of the risks and rewards of ownership of the financial assets.

On derecognition of financial assets in their entirety, the differences between the carrying amounts and the sum of the consideration received and any cumulative gains or losses are recognised in profit or loss in the period of the transfer.

2.3 CASH AND CASH EQUIVALENTS

Cash and cash equivalents in the statement of cash flows comprise bank balances and short-term bank deposits that have a short maturity of three months or less from the date of acquisition.

2.4 PROVISIONS

A provision is recognised when the Institution has an obligation at the reporting date as a result of a past event, it is probable that a transfer of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The risks and uncertainties are taken into account in reaching the best estimate of a provision. When the effect of the time value of money is material, the amount recognised in respect of the provision is the present value of the expenditure expected to be required to settle the obligation.

2.5 FINANCIAL LIABILITIES

Financial liabilities are recognised in the statement of financial position when the Institution becomes a party to the contractual provisions of the instrument.

On initial recognition, financial liabilities are measured at transaction price, include transaction costs for financial liabilities not measured at fair value through profit or loss, unless the arrangement constitutes, in effect, a financing transaction for the Institution to the arrangement.

After initial recognition, financial liabilities are classified into one of three categories: financial liabilities measured at fair value through profit or loss, financial liabilities measured at amortised cost, or loan commitments measured at cost less impairment.

i) *Financial Liabilities Measured At Fair Value Through Profit Or Loss*

Financial liabilities are classified as at fair value through profit or loss when the financial liabilities are within the scope of Section 12 of the MPERS or if the financial liabilities are publicly traded or their fair value can otherwise be measured reliably without undue cost or effort.

If a reliable measure of fair value is no longer available for an equity instrument that is not publicly traded but is measured at fair value through profit or loss, its fair value at the last date that instrument was reliably measurable is treated as the cost of the instrument, and it is measured at this cost amount less impairment until a reliable measure of fair value becomes available.

ii) *Financial Liabilities Measured At Amortised Cost*

After initial recognition, financial liabilities other than financial liabilities at fair value through profit or loss are measured at amortised cost using the effective interest method. Gains or losses are recognised in profit or loss when the financial liabilities are derecognised or impaired.

Effective interest method is a method of calculating the amortised cost of financial liabilities and of allocating the interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimate future cash payments through the expected life of the financial liabilities or, when appropriate, a shorter period, to the carrying amount of the financial liabilities.

iii) *Loan Commitments Measured At Cost Less Impairment*

Commitments to receive loan that meet the conditions of Section 11 of the MPERS are measured at cost less impairment.

iv) *Derecognition Of Financial Liabilities*

Financial liabilities are derecognised when the obligation specified in the contract is discharged, cancelled or expires.

Any difference between the carrying amounts of the financial liabilities derecognised and the consideration paid is recognised in profit or loss.

2.6 **INCOME RECOGNITION**

i) *Donation received*

Donation is recognised on cash receipt basis.

ii) *Interest income*

Interest income is recognised on accruals basis using the effective interest method.

2.7 **INCOME TAX**

Tax expense is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised in other comprehensive income.

Tax payable on taxable profit for current and past periods is recognised as a current tax liability to the extent unpaid. If the amount paid in respect of the current and past periods exceeds the amount payable for those periods, the excess is recognised as a current tax asset.

Current tax assets and liabilities are measured at the amounts expected to be paid or recovered, using the tax rates and laws that have been enacted or substantially enacted by the reporting date.

Current tax liabilities and assets are offset if, and only if the Institution have a legally enforceable right to set off the amounts and plan either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax is provided in full on temporary differences which are the differences between the carrying amounts in the financial statements and the corresponding tax base of an asset or liability at the end of the reporting period.

Deferred tax liabilities are recognised for all taxable temporary differences that are expected to increase taxable profit in the future. Deferred tax assets are recognised for all deductible temporary differences that are expected to reduce taxable profit in the future and the carry forward of unused tax losses and unused tax credits.

Deferred tax liabilities and assets are not recognised in respect of the temporary differences associated with the initial recognition of an asset or a liability in a transaction that is not a business combination and at the time of the transactions, affects neither accounting profit nor taxable profit. Deferred tax liabilities are also not recognised for temporary difference associated with the initial recognition of goodwill.

Deferred tax liabilities and assets reflect the tax consequences that would follow from the manner in which the Institution expect to recover or settle the carrying amounts of their assets and liabilities and are measured at the tax rates and laws that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates that have been enacted or substantially enacted by the reporting date.
