Time : 9:00am to 12:30pm
Venue : Industrial Concrete Products (ICP), Nilai, Negeri Sembilan

**BEM Approved
CDP: 3 Hours**
 Ref No: IEM26/HQ/167/V

WHAT IT'S ABOUT SYNOPSIS & INSIGHTS

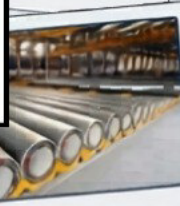

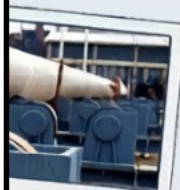

ICP Piles is Malaysia's first commercial manufacturer of pretensioned spun concrete piles and has grown into one of the largest spun pile producers in Southeast Asia. Backed by over 49 years of proven expertise, ICP leads the foundation engineering sector with a wide range of offerings, available in diameters from 250mm to 1,200mm and lengths up to 90 meters. With a presence in over 14 countries worldwide, ICP continues to uphold its reputation for delivering trusted, high-performance foundation solutions globally.

The ICP Piles factory visit offered an in-depth look at spun pile manufacturing, showcasing their superior strength, consistent quality, and sustainability advantages over conventional foundation systems. A real-world case study will be highlighted during the sharing session to demonstrate its application and show why spun piles are the preferred solution for modern engineering challenges.

ITINERARY YOUR ADVENTURE MAP
