BEM APPROVED CPD: Applying

REF NO.: Applying

Speaker:

V. Manoj Kumar has a combined experience of 25 years in the fire protections, Special Hazard, he has been in the technical team for Johnson Controls for the past 10 years handling Training, tech support for Special Hazards, Water Mechanical and Fire Alarm Systems.

Synopsis :

Fire protection is essential to our business operations. A robust, well-designed and reliable system ensures our properties and facilities operate 24/7 with minimal risk of major incidents. Gas suppression and fire alarm systems provide continuous monitoring and rapid response across sites. Our primary objective is to deliver a dependable protection solution that fully safeguards all properties and facilities
