

WEBINAR TALK ON UNDERSTANDING CONSUMER CYBERSECURITY AND RESILIENCE FOR ENGINEERS

BEM APPROVED CPD: 2
REF NO: IEM26/HQ/359/T(w)

DATE
11 September 2026
(Friday)

TIME
03.00pm –
05.00pm

PLATFORM
Zoom

SPEAKER
Mr. Bala Murgan

SYNOPSIS

This programme provides participants with a comprehensive understanding of the evolving cybersecurity landscape, including current cyber threats, common risks, and emerging digital challenges. It emphasizes the importance of building cyber resilience by adopting proactive security measures, improving digital security practices, and safeguarding personal, professional, and organizational digital assets. Participants will also gain practical knowledge on responding effectively to cybersecurity incidents while contributing to a safer and more secure digital environment.

BIODATA SPEAKER

Bala Murgan holds a Bachelor of Telecommunication Engineering (Hons) from Universiti Teknologi Malaysia (2002) and has over 25 years of experience in the telecommunications and cybersecurity industries. He currently leads B2B2C partnership initiatives at Kaspersky across the Asia Pacific region, driving strategic collaborations with telcos, financial institutions, insurers, government agencies, and enterprises. Bala is passionate about advancing cybersecurity awareness, digital trust, and consumer protection, helping organizations strengthen cyber resilience and accelerate the adoption of innovative cybersecurity solutions.
