SYNOPSIS

Join us for an insightful technical visit to Acson Malaysia's Smart Room & Gallery, offering participants an opportunity to explore the latest advancements in air-conditioning and smart HVAC technologies.

The visit will feature a guided tour and technical sharing on smart cooling solutions, energy-efficient air-conditioning systems, intelligent controls, and modern HVAC applications. Participants will also have the opportunity to observe product demonstrations and interact with Acson's technical representatives.

This visit is designed to provide engineers and industry professionals with practical knowledge and exposure to innovative HVAC solutions for residential, commercial, and critical environments.

Key Highlights:

- Smart Room & Gallery tour
- Demonstration of smart HVAC technologies
- Energy-efficient cooling solutions
- Technical sharing with Acson representatives
- Practical insights into modern HVAC applications
