TECHNICAL VISIT TO KOSSAN PAINT (M) SDN. BHD. KAPAR, SELANGOR

The technical visit to Kosan Paint (M) Sdn Bhd aims to provide the IEM team and members with a comprehensive understanding of the company’s manufacturing capabilities, product range, technical expertise, and services. The visit will provide an opportunity for participants to gain first-hand exposure to industrial manufacturing processes, production practices, quality control, and the application of engineering technologies in the paint and coatings industry.

The visit will also facilitate knowledge sharing and technical exchange between IEM members and industry practitioners, while providing a platform to understand current industry practices, challenges, and technological developments. In addition, the engagement will enable both parties to explore potential areas for future collaboration, including technical activities, knowledge-sharing programmes, and professional development initiatives for IEM members.

During the visit, Kosan Paint (M) Sdn Bhd will provide an overview of its products and services, followed by a factory tour and technical sharing session. The programme will offer IEM members valuable industry exposure, enhance their technical knowledge, and strengthen the connection between engineering professionals and industry.
