The Institution of Engineers, Malaysia

Two-Day Course On

Basic Welding Knowledge in Engineering & Construction

Organised By:

Marine Engineering & Naval Architecture Technical Division, IEM

Date : 26 – 27 November 2014

(Wednesday & Thursday)

Venue: Tan Sri Prof. Chin Fung Kee Auditorium,

3rd Floor, Wisma IEM, Petaling Jaya,

Selangor.

Time : 8.30 am - 5.30 pm

BEM Approved CPD/PDP Hours = 14 hrs Ref. No: IEM14/HQ/120/C

Grade	Normal Fee	Online Registration
IEM Student Members	RM 280	RM 250
IEM Graduates Members	RM 550	RM 450
IEM Corporate Members	RM 750	RM 700
Non IEM Members	RM 1000	RM 900

CLOSING DATE: 22 NOVEMBER 2014

NO ONLINE REGISTRATION WILL BE ALLOWED AFTER THE CLOSING DATE

For <u>online registrations</u>, (<u>www.myiem.org.my</u>) please note that payment MUST be made by the closing date at the latest. If payment is not received and verified within the stipulated time, the registration fee will be reverted to the normal registration fee.

SYNOPSIS

Welding activities play a vital role during the construction phase especially in the marine and oil and gas industry, be it new construction, refurbishment or conversion projects. This course gives the essence of welding knowledge in the engineering & construction, especially suitable for engineers who intend to gain a fundamental but solid grounding on welding inspection. You will learn the structured and integrated welding technology, welding process, welding defects, duties of inspection engineers at site, tools and techniques that are applicable to managing the welding activities, welding symbols and etc. The course contents are closely referenced to CSWIP course note for welding inspector course. This two-day intensive course is both practical and interactive, supplemented with useful course note, real-life case studies and working examples.

BENEFITS

- Understand the relevant of welding technology related to steel fabrications
- Able to recognize characteristics of commonly used welding processes in relation to quality control
- Able to interpret drawing instructions and welding symbols to ensure that specifications are met
- Understand the application of welding consumables for specific applications and consumable handling
- Aware of the engineering codes and standards related to welding and inspection requirements
- Able to identify various weld imperfections (defects)
- Understand factors which influence the quality of fusion welds in steels
- Able to carry out visual inspection of welds, report on them and assess their compliance with specified acceptance criteria

WHO COULD BENEFIT FROM THE COURSE

All engineers who need basic training in welding inspection; Inspectors / QA & QC Inspectors & Engineers / Engineers / Inspection Engineers who undertake the visual examination of welded joints or involve in construction projects; Quality Control / Quality Assurance staff associated with welding and construction; Government and Nongovernment officers; Anyone responsible for or involved in construction project.

BIODATA OF SPEAKER

Ir. Nik Mohd Hasmizie, B.Eng (Mechanical), P.Eng, MIEM, CEng, CMarEng, MIMarEST has 13 years of experience in the Marine & Oil and Gas industry as a Professional Engineer, Chartered Engineer and Chartered Marine Engineer. He is experienced in marine & oil and gas construction projects of different sizes and complexities. He had previously worked with EPCIC Company, Classification Body and Client as a Project Manager, Project Engineer, Surveyor, Mechanical Engineer, Owner representative for marine and offshore projects.

The example of projects he involved are new ship building of 4 units Aframax Crude Oil Tankers 105k DWT in Samsung Heavy Industries (South Korea), new construction of WOODSIDE ANGEL

topside wellhead platform, new construction of Gumusut-Kakap semi submersible Floating Production Unit in MMHE (Pasir Gudang), FPSO (Floating Production, Storage and Offloading) ASENG conversion and refurbishment for client NOBLE ENERGY USA, FPSO N'GOMA major refurbishment & relocation project for Client ENI Angola SPA and recently EPCIC of EVA gas pipeline, jacket and topside Project for client Trans Thai Malaysia (Malaysia) TTMM. The involvements are includes but not limited to tendering & bidding, contract management, engineering & project management, construction, procurement, sub contract, quality assurance, welding inspection, Welding Qualification Test (WQT), Welding Procedure Qualification Test (WQT), Factory Acceptance Test, pre-commissioning and commissioning. Currently, he is a Deputy Project Manager in company SapuraKencana Petroleum Berhad for EPCIC EVA gas pipeline, jacket and topside Project for Client Trans Thai Malaysia (Malaysia) TTMM.

Ir. Nik Mohd Hasmizie serves as the current Committee Member of the Marine Engineering & Naval Architecture Technical Division of the Institution of Engineers Malaysia (IEM) and also Committee Member of the Project Management Technical Division of the Institution of Engineers Malaysia (IEM). He is a certified Welding Inspector (CSWIP 3.1) and Radiographic Interpreter (CSWIP 3.4) of the CSWIP, United Kingdom.

COURSE OUTLINE

<u>Time</u>	<u>1st Day</u>	2nd Day	
0830 - 0850	Registration	Registration	
0850 - 1030	Introduction to WeldingType of Welding Joint and Welding Positions	Welding Defects and Repair	
1030 - 1045	MORNING TEA BREAK	MORNING TEA BREAK	
1045 - 1300	• Welding Process and Technology (SMAW, MIG, TIG, SAW, FCAW)	 Duties of Inspection Engineers / Welding Inspector Inspection Tools 	
1300 - 1400	LUNCH BREAK	LUNCH BREAK	
1400 - 1530	Welding Symbol and Drawing Instructions	 Welding Procedure Qualification Test (WPQT) Welder Qualification Test (WQT) 	
1530 - 1545	AFTERNOON TEA BREAK	AFTERNOON TEA BREAK	
1545- 1630	Welding ConsumablesWelding Distortion	Radiographs	
1630 - 1730	Non-Destructive TestQ & A	Mechanical Test at Laboratory Q & A	

TERMS & CONDITIONS:

The Organizing Committee reserves the right to cancel, alter, or change the program due to unforeseen circumstances. Every effort will be made to inform the registered participants of any changes. In view of the limited places available, intending participants are advised to send their registrations as early as possible so as to avoid disappointment.
