Background

CKYIBS Interlocking Load Bearing Wall System is a patented Industrialised Building System (IBS) manufacturer in Malaysia. CKYIBS is rated as a modular dimension coordinated IBS. CKYIBS have successfully incorporated tongue and groove technology into the building components as a means to reduce the need of skilled construction workers. In addition, CKYIBS also eliminates the use of formwork, removes the need to hire carpenters, reduce up to 60% of steel content needed in the construction walls and provide high quality finished wall.
