BACKGROUND

Jutasama Sdn. Bhd. (Jutasama) is engaged in the design, fabrication, installation and commissioning of special tanks, pressure vessels, piping and specialised processing equipment required by the chemical industry, food processing plants and other engineering undertakings. The company is capable of fabricating products in accordance to major international codes or specifications in carbon steel, stainless steel, alloy and clad materials.

The company quality workmanship is well complemented by dedicated employees deep in pursuit of performance excellence, the adoption of the latest computer systems and use of advanced processing equipment to achieve uncompromising precision and top quality.

The commitment to quality has earned the company many orders from national and multi-national companies. Jutasama also supply to international engineering companies who in turn export to regional countries like Middle East, Japan, China, Indonesia, India, Thailand, Singapore, Australia & etc.
