BACKGROUND

Tex Cycle is a company that specializes in recycling and recovery of schedule waste. It was formed in 1984, a time when contaminated waste was unintentionally dumped in landfills or burned indiscriminately at obscure places. Sharing the same vision of the Department of Environment (DOE) to continuously protect the land we live on, the company has developed to earn pioneer status in the recycling of scheduled waste. Tex Cycle practices and acts on the worldwide effort of waste management, living the motto of "reduce, reuse, recover, and recycle." The company has developed to earn pioneer status in the recycling of schedule waste. Tex Cycle practices and acts on the worldwide effort of waste management, living the motto of "reduce, reuse, recover, and recycle". As a professional recycler, Tex Cycle collects used materials directly from companies in the electronic, engineering, automobile, oil & gas, printing and other manufacturing industries, all of which use rags, wipes and gloves. These materials are soiled with grease, inks, solvents and whatever substance imaginable. Such wastes are now highly regulated and materials to be disposed at sites permitted by the DOE and handled only by licensed contractors. Every year, the ever increasing hundreds of tons of soiled rags, wipe, cloths and gloves are transported by our licensed fleet of trucks to Tex Cycle.
