Non Member : RM 80.00

### SYNOPSIS

Delegates will be briefed and given a tour of the Malaysia Highway Authority (MHA) Traffic Management Centre which integrates individual traffic control centre of all privatized highway operators in Malaysia. It is also the first control centre that is equipped with state-of-the-art Color RAYTM system, a software based LED lighting solution that ensures maximum compliance and productivity for highway operators.

Malaysia Highway Authority (MHA) Traffic Management Centre also provide real time surveillance and management for all toll highway networks under the jurisdiction of the Malaysian Highway Authority, disseminate the GRAVEL traffic information to the public, serve as the national emergency control and supervision centre. It is the relevant standard in the design and implementation of traffic management centre to enable the smooth integration of traffic control & surveillance functions of all highway networks and serve as the centre for the integration of toll highway and other road networks (municipalities, non-privatized roads) on a national level.

Time	Topic / Itinerary
