### Background

Lafarge's Construction Development Laboratory (CDL) is the fifth in the world and first in Southeast Asia aim to promote construction efficiency by adapting innovative solutions to better meet Malaysia construction and building needs. The CDL houses three (3) labs – a cement, a concrete and an aggregates lab, with state-of-the-art testing equipment for quality control and assurance of its products. It also has an open testing space for prototypes and demonstrations of new systems and structures.
