DOE Approved CPD hours: xx hours

## The Conference

The conference aims to provide a platform of discussion for local and international experts on issues related to transport developments and their impacts on the environment. This also allows the experts from various discipline to exchange ideas and opinions on the effective strategies and planning to mitigate the potential negative social and environmental impacts caused by transport activities. It is anticipated that the conference would create awareness to the nation on this important subject.

The APTE conference has been organized by various countries in the Asia Pacific region, such as Singapore (1998, 2004, 2007), China (2000, 2005, 2009), Indonesia (2010), Thailand (2012), and Sri Lanka (2014). This is the inaugural APTE conference in Malaysia. The MUTRF conference has been organized by various local universities. This is also an inaugural MUTRF conference organized by UTAR in collaboration with the Institution of Engineers Malaysia (IEM) and Transportation Science Society of Malaysia (TSSM).
