### SYNOPSIS

Malaysia Automotive Institute (MAI) is an organization set up by the government of Malaysia with the objectives to act as strategic thinker for the Malaysian automotive industry and develop & promote the competitiveness of the Malaysian automotive industry. The main roles of MAI are to transform the Malaysian automotive industry into a globally competitive sector, committed to wider application of research and technology in market driven niche areas and to widen the industrial base in enhancing the competitiveness of local automotive manufactured products and services. MAI is also mandated to harness and mobilize collective efforts amongst the automotive stakeholders in the planning and implementation of industry strategy towards a common direction and to promote collaboration, strategic alliances, partnerships & linkages for technology & market outreach, including to serve as a focal point in providing the necessary support to various government and industry stakeholders. It would be a great opportunity for Engineers to visit MAI to gain insight and better understanding particularly on the automotive industry in Malaysia.
