SYNOPSIS

Sepen Engineering Sdn. Bhd. incorporated in 2008 by a skilful team member with years of experiences involved in the fabrication of process equipment, metal structure and provision of maintenance and shutdown services. In September 2008, Seremban Engineering Berhad subscribed for 60% shares in our company, thereafter become our holding company. Being part of a strategy group has given us access to greater resources, opportunities and supports, enabling us to continue our expansion, development and improvement strategy.

Sepen Engineering also provide services such as fabrication and erection of all kinds of storage tank, mixing tank, silos, hopper and spray dryer, fabrication and installation of all kinds of stainless steel conveyor, chimney, ducting & piping work, fabrication and erection of steel structures and platform, fabrication and installation of food process plant sanitary tubing, valve, fitting and CIP systems, fabrication and installation of reactor, vessels and deodorizer, polishing works (hairline, mirror & etc) depends on client's requirement and maintenance Shutdown works for plants, machinery parts and equipment.
