SYNOPSIS

The Grundfos Group is represented by more than 80 companies in over 55 countries. With an annual production exceeding 16 million pump units, Grundfos is one of the world's leading pump manufacturers. In addition to pumps Grundfos produces standard and submersible motors as well as state-of-the-art electronics for monitoring and controlling pumps. To date, we can find Grundfos pumps at various industries such as agricultural irrigation, food & beverage process, rural water supply, water & wastewater treatment, etc.

Grundfos pumps have been sold in Malaysia since the mid-60s, through an agent in Kuala Lumpur. A local Grundfos company was incorporated in August 1990, bringing the company closer to its customers. Grundfos Malaysia is today based in its own building at Glenmarie industrial Park, housing more than 90 employees from sales & marketing, service & logistic to human resources, administration & finance as well as a service centre equipped with state-of-the-art testing facilities.

Grundfos Malaysia has also established a strategic Dealers' Network around Peninsular Malaysia, Sabah, Sarawak and Brunei. The presence of Grundfos nationwide enables easier access to every customer's needs, providing total & individualized customer satisfaction in pumping solutions.
