BACKGROUND

Aker Solutions is a global provider of products, systems and services to the oil and gas industry. Their engineering design and technology bring discoveries into production and maximize recovery from each petroleum field. They employ approximately 15,000 people in 20 countries. Aker Solutions portfolio of oilfield stretches all the way from the reservoir to the wellstream processing systems generating marketable and valuable hydrocarbon products.

The Aker Solutions Manufacturing Centre in Port Klang assembles oil and gas production equipments and systems. Some of the items that have been manufactured are topsides process packages, subsea structures, subsea christmas tree, subsea control module, subsea wellheads, and drilling and production risers. In this visit, visitors will be able to learn how the manufacturing centre is operated and maintained.
