Technical Visit to VTSB Trading – Grease Trap Manufacturer

(Organized by the Building Services Technical Division)

BEM Approved CPD/PDP Hours: **3.5** Ref. No.: **IEM16/HQ/173/V**

Date : **11th June 2016 (Saturday)**
Time : 9:00 a.m. – 1.30 p.m.
Venue : 12, Jalan TIB 1/3, Taman Industri Bolton,
68100, Batu Caves, Selangor Darul Ehsan, Malaysia.
Transport: Own Transport

COMMITMENT FEE (Inclusive GST)
(Nonrefundable & nontransferable)
IEM Member : RM 50.00
Non Member : RM 80.00

***competitors are strictly NOT allowed into factory**

SYNOPSIS

Fats, Oil & Grease (FOG) are the main pollutants to our river systems. The main source of FOG is from the food outlets. DBKL stipulated the installation of Grease Trap at all food outlets effective 1st January 2014, those who failed to comply will have their license revoked or not renewed. Reported on the 5th Jan 2016 by *Star Metro* that 10 popular food outlets in the city showed that despite installing the grease traps, the drains are still clogged, stagnant with gunk accumulated from food waste, detergent, oil, grease, lard and chemical used to clean and prepare food. There is a need for Engineers to understand the parameters when selecting the grease trap size. Maintenance of the grease trap is equally important if we are to reduce the FOG entering the rivers.

ITINERARY OF THE VISIT

Time	Itinerary
08.30 am – 09.00 am	Arrival at VTSB Trading.
09.00 am – 11.30 am	Introduction about company. Concept and Design features of Grease Trap. Maintenance of grease trap.
11.30 am – 12.30 pm	Plant Tour - Demonstrate set - Manufacturing processes
