SYNOPSIS

The Malaysian Lift Regulations is based on BS2655 and was established under the Factory and Machineries Act 1967. The regulations came into force on 1st February 1970 for Passenger and Goods lifts while Escalators are managed under special provision.

Since the establishment of the Lift Regulations, the BS which it is based on has undergone many revisions. Jabatan Keselamatan dan Kesihatan Pekerjaan (JKKP) is the regulatory authority which enforces the Lift Regulations and has issued directives to incorporate some important requirements that are in the latest standards which are not in the Lift Regulations.

This talk will give an update on the work being done to bring the Malaysian VTS industry up to par with global standards by adapting the latest EN.

BIODATA OF SPEAKER

Mr. Raghieb Fasih Azmi, Grad. IEM has more than 20 years of experience in the elevator and escalator industry. He has served various capacities in sales, installation, maintenance and general management for leading lift companies both locally as well as overseas. He had roles in several major high rise projects such as Petronas Twin Towers, Burj Khalifa, India Tower, Kingdom Tower and Menara Warisan. Currently he is working for a leading Malaysian company providing green, smart and connected solutions for the built environment.

Mr. Raghieb Fasih Azmi, Grad. IEM has served in the SIRIM Working Group on Lifts and Escalators and has been actively involved in the development of Malaysian Standards for lifts and escalators. He has been actively serving IEM in various committees since 1993 and is currently a committee member of Mechanical Engineering Technical Division of IEM.
